ADA Statement
Students who have disabilities that qualify under the Americans with Disabilities Act may register for assistance through the Office of Access and ADA Services. Students are invited to contact the Access Office to confidentially discuss disability information, academic accommodations, appropriate documentation and procedures. For more information, please call either the Moberly office at (660) 263-4100 X 11240 or the Columbia office at (573) 234-1067 /x 12120, or visit our web page at http://www.macc.edu/index.php/services/access-office.

Nondiscrimination Statement
Moberly Area Community College is committed to a policy of non-discrimination on the basis of race, color, national origin, gender, sexual orientation, disability, age, marital or parental status, religion, genetics, ancestry, or veteran status, in admission, educational programs, activities and employment. All inquiries concerning nondiscrimination, including equal opportunity and Title IX, should be directed to the Title IX Coordinator: Jackie Fischer, PH.D., Dean of Academic Affairs, 101 College Avenue, Moberly, MO 65270 (660) 263-4100, ext. 11236. Inquiries concerning Section 504 of the Rehabilitation Act of 1973, which guarantees access to education regardless of disability, should be directed to: Stacy Donald, Director Office of Access and ADA Services, Moberly Area Community College, Columbia Higher Education Center, Room 119, 601 Business Loop 70 West L-2, Columbia, MO 65203 (573) 234-1067, ext. 12120

Purpose of the Handbook:
This handbook is designed to serve as a guide for student's understanding of the Practical Nursing Program. It outlines those rules and regulations which will govern the program. It also defines the duties and responsibilities of the student.

Student Conduct Policy:
MACC students are expected to be respectful of the rights of other students, staff, and instructors to create a safe, peaceful atmosphere conducive to the educational goals of an institution of higher learning. Rude or disruptive behavior will not be tolerated. Student actions that do not adhere to the MACC Student Code of Conduct will be addressed according to College policies regarding academic dishonesty and disruptive behavior.

Please refer to the Student Conduct Policy in the College Catalog for additional information.

Vacant Part-time Practical Nursing Secretary
MOBERLY AREA COMMUNITY COLLEGE
Practical Nursing Program Philosophy

Definition of Nursing: Nursing is an art and science that promotes health maintenance throughout the lifespan. Nursing is a caring profession that requires specialized skills, attitudes, and behaviors that facilitate the therapeutic nurse/client relationship. Nursing employs caring behaviors to protect, promote, and optimize health, wellness, and quality of life for individuals, families, groups, and communities.

Person/Client: A person is a holistic being comprised of complex needs that includes physiological, psychological, and cultural components.

Environment: The environment encompasses all internal and external experiences affecting the client. The client’s environment acknowledges the individual's responses to these forces in family and global community. The environment provides the foundation for both the client and the learner. The learning environment acknowledges the unique needs of the individual and facilitates the attainment of knowledge, skills, and critical thinking. The client environment acknowledges the individual's response to internal and external demands in the home, local, national, and international companies.

Health: Health is a fluid state along a wellness/illness continuum throughout the lifespan.

Nursing Education: Practical Nursing education is an organized program of learning processes designed to meet specific outcome objectives. It produces qualified individuals who possess the necessary knowledge, skills, and related clinical experiences that enable them to become competent practitioners of the profession. Teaching/learning is a continuous process requiring active participation by both teacher and learner. Teaching is a systematic process that facilitates change through instruction, practice, and experiences proceeding from simple to complex. Learning is a lifelong process that promotes personal and professional development. The teacher assists learning through counseling, guiding, and challenging the student to reach their fullest potential. The student is responsible and accountable for self-direction, independent study, and self-evaluation. The institution provides resources to facilitate the learning process.

Conceptual Framework of the Practical Nursing Curriculum: The Practical Nursing faculty at Moberly Area Community College recognizes the nursing process as the foundation for nursing practice. The curriculum flows from the nursing process and interfaces with our philosophy of nursing education. The nursing process includes assessment, nursing diagnosis, planning, implementation, evaluation, and documentation of these five steps in the promotion of health, prevention of illness, and provision of quality care within the scope of the practical nurse.

The Practical Nursing Core Curriculum prepares the student to become a safe practitioner through instruction in fundamental skills, adult nursing, maternal/child nursing, medication administration, intravenous therapy, and personal and vocational concepts.

The Secondary Curriculum in the Practical Nursing program includes the integrated threads of pharmacology, diet therapy, cultural competence, and lifespan considerations in the application of the nursing process.

The Practical Nursing faculty at Moberly Area Community College is committed to a holistic approach to nursing care and education as reflected in the Practical Nursing Program Philosophy.

Operational Concepts and Terms
To provide for consistency in the application of terms throughout the curriculum, the faculty at Moberly Area Community College recognizes the following:

1. **Across the Lifespan**: similar term: throughout the lifespan. Indicates application of age specific nursing care to clients from prenatal to death.
2. **Cultural Competence**: similar term: culturally sensitive. Cultural competence recognizes the needs of clients from a variety of diverse backgrounds and social behaviors by delivering non-biased and appropriate care.
3. **Holistic Care**: use of the term holistic care implies recognition of the physical, emotional, spiritual, intellectual, and sociological needs of the client.
4. **Nursing Process**: assessment, diagnosis, planning, implementing, evaluating, and documenting care of the client.
5. **Plan of Care**: the term plan of care is any written or verbal approach that organizes and prioritizes the needs of a client.
6. **Role of the Practical Nurse**: Practical Nursing is the application of holistic nursing care throughout the lifespan to include:
   a. use of the nursing process
   b. promotion, prevention, maintenance, and restoration of health
   c. compassionate end of life cycle
   d. client advocacy
   e. maintenance of legal and ethical standards
   f. personal and interpersonal communication
   g. lifelong learning and a commitment to excellence
7. **Scope of the Practical Nurse**: At Moberly Area Community College, the term "scope of the practical nurse" indicates adherence to the qualifications and limitations of the practical nurse as delineated in the Missouri Nursing Practice Act.

Terminal Objectives
Upon Completion of the Practical Nursing Program, the graduate is prepared to:

1. Function within the practical nursing role as a contributing member of the health care team.
2. Utilize the nursing process to formulate client plans of care.
3. Function within the scope of the practical nurses as described in the Missouri Nursing Practice Act.
4. Prioritize nursing actions to meet the physiological, psychological, sociological, and cultural needs of the client.
5. Apply nursing skills in the restorative, maintenance, and health promotion and end of life situations.
6. Demonstrate responsibility and accountability for personal and professional growth and a commitment to lifelong learning.
7. Apply cultural sensitive care in the local and global community.
8. Demonstrate appropriate communication techniques in interacting with clients and their support persons, colleagues, and other members of the health care team.
9. Provide safe, legal, and ethical care in the practice setting.
10. Utilize leadership and management concepts within the practical nursing role.
11. Apply appropriate principles of teaching and learning with clients and families.
12. Complete the program requirements to become eligible for the NCLEX-PN exam.

Program Description
This 12-month certificate program in Practical Nursing provides a combination of subject matter and clinical experience to prepare an individual to work in a variety of structured health care environments. The graduate of Moberly Area Community College's Practical Nursing Program functions as a client care given under the direction of a Registered Professional Nurse and/or Licensed Physician.

Accreditation Status
The Moberly Area Community College School of Practical Nursing is fully approved by the State Board of Nursing and the State Department of Education, Vocational Division. This program is fifty-two weeks in length.

Licensure by the Missouri State Board of Nursing
Upon successful completion of the program, the student is eligible to apply to take the National Council of Licensing Examination for Practical Nurses. Missouri Nursing Practice Act, Section 335.066, provides additional criteria for eligibility to apply for licensure to practice nursing. Successful completion of the program does not guarantee eligibility to take the licensing exam. Satisfactory performance on this examination will qualify the student for licensure as a practical nurse.

Students should read and be familiar with section 335.066, "Refusal to issue or revocation of license, grounds for a hearing and how they are made", of the Missouri Nursing Practice Act. (See Appendix A)

Students should be aware that any criminal conviction (excluding traffic violations), or evidence of alcohol or drug addiction, may disqualify a candidate from being eligible to write the licensure examination (state board examination). Any student who anticipates a problem in this area should contact the Coordinator of the Practical Nursing program at once to discuss the possible effects such a matter could have on become licensed.

Nursing Course Syllabi
Nursing course syllabi are available each semester in the Moberly Area Community College Bookstore or on Canvas on-line for the Practical Nursing programs. Students are required to have a syllabus for each nursing course in which they are enrolled. Students should secure the syllabus prior to the first day of classes each semester. The syllabus is used as the basis for evaluating achievement in the course and includes objectives that students must achieve to be successful in the course. The faculty will outline expected levels of performance in each course at the start of the semester.
Practical Nursing Student Organization
The mission of the Practical Nursing Student Organization is to promote professional and ethical behavior, cooperation, and collaboration; encourage dedication to be a lifelong learner; facilitate strong professional and public relationships; and emphasize the delivery of quality nursing and public services.

Students are encouraged to become members of a professional nursing organization, such as the Missouri State Association of Licensed Practical Nurses.

Student Support Services
See MACC Catalog and MACC RedBook Enrollment Guide.

Crisis Management Plan
Policies for Programs
Admission Process
If applying to the Moberly PN program, return forms to the Health Sciences Office. If applying to the Mexico or Columbia PN program, return forms to the Nursing Administration Office at the MACC-Mexico or Columbia Area Career Center.

Pre-Requisites: Successfully complete college level Human Anatomy/Lab with a "C" or above and Fundamentals of Math or equivalent/higher with a grade of "C" or above or have a placement score for Intermediate Algebra or higher.

1. Application forms completed for Moberly Area Community College and the Practical Nursing program.
2. Official High School Transcript or GED transcript, if applicable, on file in Student Affairs. It is the student's responsibility to check on the status of their transcript in Student Affairs.
3. Official College or University Transcripts on file in Student Affairs. (This includes transcripts from any nursing schools attended if applicable) It is the student's responsibility to check on the status of their transcripts in Student Affairs.
4. A TEAS-V exam is required with a minimum score of 58% to apply.
5. MACC Accuplacer or ACT sub-scores (A current ACT within the last 5 years) must be submitted prior to or on May 1.
6. Each prospective student must complete and return a notarized Essential Qualifications form prior to May 1.
7. Each prospective student must complete and return a notarized Missouri Nursing Practice Act form prior to May 1.
8. Each prospective student must complete and mail the notarized Caregiver Background Screening form to the Jefferson City, MO address on the back of the form prior to May 1.
9. Submit to and pass a criminal background check. This may be completed online at www.machs.mshp.dps.mo.gov, and the required fee must be paid at time of completion by debit or credit card.
10. Submit to and pass the review of Employee Disqualification through the Department of Health and Senior Services. The Employee Disqualification will be checked by the Health Sciences office or the Mexico/Columbia Nursing Administrative Office.
11. Three reference forms must be submitted. The individual score on each category must be no higher than a 2.0. These may not be completed by a personal friend or relative. The reference forms will not be accepted if hand-delivered. Reference forms should be mailed or faxed from the person providing the reference to the Health Sciences office. If the student has attended MACC Associate Degree Nursing program within the last two years, one of the references must be obtained from an Associate Degree Nursing Instructor.
12. A cumulative grade point average of 2.0 from high school or college. All university or college coursework attempted will be evaluated by the MACC Registrar to determine a student's cumulative grade point average. College transcripts supersede high school transcript.
13. Admission is contingent on maintaining a 2.0 cumulative grade point average.
14. A TOEFL score of 560 on the written exam or a score of 86 on the TOEFL IBT exam, ACT English score of 20 or greater, or a C or better in Composition I for students whom English is a second language.

Please be reminded that these are minimum admission criteria for the program and does not guarantee admission.
**Admission Process**
Applications will be reviewed and selected without consideration of sex, age, handicap, race, creed, color, religion, natural origin, marital or parental status. There will be advanced placement given for state CNA certification within the Practical Nursing program but not for CMT, EMT, Paramedic, or other health related credentialing at this time.

A weighted admission process is utilized to select qualified candidates for acceptance into the Practical Nursing program. Students earning at least 10.5 points on the MACC Practical Nursing Process Score Sheet and meeting all other minimum admission requirements will be automatically admitted, pending seat availability. In the event there are more students scoring 10.5 points or greater than available seats, students with the highest points will be admitted. Those students not meeting automatic admission criteria will go to the Practical Nursing Admissions Committee for a competitive selection process.

Students are selected for admission into the program via weighted admission process. Applicants whose records indicate the greatest potential for successful achievement will be admitted to the program. Qualified applicants not admitted for the current academic year will be placed on an alternate list. If no position becomes available, these applicants may reapply for the next academic year.

In the event of an unusual situation concerning an applicant, an admissions committee will make the decision to accept or decline admission. The committee will consist of the Dean of Student Affairs and Enrollment Management, the Dean of Health Sciences Programs, the Practical Nursing Coordinator, Nursing faculty, and three members of the health care community. Decisions of the Admissions Committee are final.

**Late Admission**
The last day of regular admission into the Practical Nursing Program is five (5) school days after the established entrance date of the program.

**Curriculum**
The typical curriculum for the Practical Nursing Student is a three (3) semester sequence. A minimum of 51 credit hours is required for the certificate program in Practical Nursing. Nursing courses may be taken only after acceptance into the Practical Nursing program. Clinical nursing courses begin the first semester and continue through the final semester. Completion of the clinical component is a requirement for the successful completion of the Practical Nursing program.

**Fall Semester**
The student spends the first seventeen weeks in the classroom, nursing laboratory, and four half-days in the clinical area. Classroom instruction (lecture, power-points, and group discussion), instruction in laboratory procedures, demonstration and return demonstration, field trips, and guest lecture are methods used in teaching. Films, DVDs, videos, anatomical charts, and torso are used as teaching aids.

**Spring/Summer Semesters**
The last thirty-four weeks of the program are focused on classroom instruction and clinical practice. Two days per week of clinical for 7-8 hours are spent in the clinical setting. Clinical experience in the administration of medications is obtained in Nursing Care of Adults I and II, Nursing Care of Children, and Maternal Newborn Nursing courses. The emphasis in the clinical area is on learning experiences and continuity of client care.
Following is an example of course sequence for the program’s curriculum.

**PRACTICAL NURSING PROGRAM**  
**Recommended Course Sequence**

**Pre-requisites:** Successfully complete college level Human Anatomy/Lab with a "C" or above and Fundamentals of Math or equivalent/higher with a grade of "C" or above or have a placement score for Intermediate Algebra or higher.

**Total Program Credit Hours:** 51 credits

*This is a College course which must have a required lab. "C" or above grade has to be achieved.

Students must maintain a letter grade of "C" (78%) or above in each nursing class and clinical component to continue in the program. Should a student in the Practical Nursing program fail a required support course (College Physiology) the student will be dropped from the Practical Nursing program.

There is a clinical fee assessed per credit hour for each nursing course with a lab or clinical component.
Course descriptions are located in every syllabus, the Moberly Area Community College catalog and on the MACC website at www.macc.edu. (Click on Student Affairs, College Catalog, Course Descriptions, PNC-Practical Nursing)

**IV Therapy**

IV Therapy is a minimum standard for the Practical Nursing program. Course competencies and an exam in intravenous therapy must be passed in Nursing Care of Adults I during the spring semester of the program in order to meet the requirements. Students must pass the IV Therapy exam with at least a "C" (78%) in order to meet the minimum standards for IV Therapy and progress in the nursing program. Students will only have one attempt to pass this exam. If the IV Therapy exam is not passed with a "C" (78%), the student will be dropped from the Practical Nursing program with a theory grade of withdrawal for the Nursing Care of Adults I course and will be rewarded a No Credit (NC) for the clinical component of the course. A student who is unsuccessful in IV Therapy will not be allowed to continue in the Practical Nursing program.

Students must demonstrate proficiency in IV Therapy Lab Skills. If a student is unsuccessful in performing the intravenous insertion skill on the first attempt, a second attempt will be granted. If a student fails to demonstrate proficiency on the second attempt, the student will be dropped from the Practical Nursing program with a theory grade of withdraw unsatisfactorily (WU) and a clinical grade of fail (F) and will not be allowed to continue in the Practical Nursing program. (See Appendix H, IV Therapy form for student signature)
**Grading System**
The requirements for continuation in Practical Nursing program are as follows:

1. **Theory Courses**
   A grade of "C" (78%) must be earned in each theory course. The grade for a theory course will be determined by the following scale:

<table>
<thead>
<tr>
<th>Component</th>
<th>Weight</th>
</tr>
</thead>
<tbody>
<tr>
<td>Unit Exams</td>
<td>65%</td>
</tr>
<tr>
<td>Quizzes, Homework, Etc.</td>
<td>10%</td>
</tr>
<tr>
<td>Final</td>
<td>25%</td>
</tr>
<tr>
<td><strong>Total</strong></td>
<td>100%</td>
</tr>
</tbody>
</table>

2. **Courses with a Lab and/or Clinical Component**

<table>
<thead>
<tr>
<th>Component</th>
<th>Weight</th>
</tr>
</thead>
<tbody>
<tr>
<td>Unit Exams</td>
<td>65%</td>
</tr>
<tr>
<td>Quizzes, Homework, Etc.</td>
<td>10%</td>
</tr>
<tr>
<td>Final</td>
<td>25%</td>
</tr>
<tr>
<td><strong>Total</strong></td>
<td>100%</td>
</tr>
</tbody>
</table>

   **Clinical and/or Lab**

<table>
<thead>
<tr>
<th>Component</th>
<th>Grade</th>
</tr>
</thead>
<tbody>
<tr>
<td>Clinical and/or Lab</td>
<td>Pass/Fail</td>
</tr>
</tbody>
</table>

   Clinical Grades:
   - Clinical Performance Evaluations: 78%
   - Nursing Care Plans/Observation Experience: 78%

Clinical is graded on a pass/fail basis and must be passed to receive a grade in the course. In order to pass clinical, a student must have a score of "C" (78%) of the total clinical points possible in clinical performance and in written clinical assignments. Clinical performance is evaluated each week when completing patient care using the "Clinical Performance Evaluation Tool". In order to pass clinical performance, each student must accumulate an average score of 78% from the various performance areas. Completion of the clinical component is a requirement for successful completion of the Practical Nursing program.

Students must pass clinical with a "C" (78%) in each of the identified areas to receive a "P" (pass) for the clinical portion of the course. An "F" (fail) will be assigned to any clinical total below "C" (78%). Clinical grades will not be added to theory grades.

Students must receive a "P" (pass) in clinical in addition to a "C" (78%) of the points possible in the theory portion of the course to pass the nursing course. Clinical grades and theory grades are independent of one another. In the case of clinical failure, the theory grade will be assigned as no credit (N/C). In the case of a grade less than 78% in theory, a failing grade will be assigned and a grade of no credit (N/C) will be assigned for the clinical portion of the course.

**Competency Evaluation**
Simulation may be used for high stake testing/evaluation and the session may be video-taped. The decision to video-tape the session is at the discretion of the instructor.
3. Grading Scale as Follows:

<table>
<thead>
<tr>
<th>Grade</th>
<th>Percentage</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>92-100%</td>
</tr>
<tr>
<td>B</td>
<td>83-91%</td>
</tr>
<tr>
<td>C</td>
<td>78-82%</td>
</tr>
<tr>
<td>D</td>
<td>66-77%</td>
</tr>
<tr>
<td>F</td>
<td>65% and below</td>
</tr>
</tbody>
</table>

Failure to maintain a "C" (78%) average in each course will result in dismissal from the program. Mid-term grades will be provided each semester. Once accepted into the Practical Nursing program, students must maintain a 2.0 cumulative grade point average to remain in the program.

4. Exams/Presentations

   A. All exams will be scheduled and announced at least two (2) days prior to the examination. All students are expected to take any and all scheduled exams on the day and time they are administered. If a student's absence occurs on the day of the exam, there will be an up-front deduction of 10 percent from the total points possible on the exam unless extreme, extenuating circumstances prevail. An additional 10 percent of the total points possible will be deducted for each additional business day the exam is not completed. If the exam is not taken within one business week of the original scheduled exam date, the student will earn a zero (0) for the exam. It is the student's responsibility to complete the petition form requesting an extension the day the student returns and submit it to the Practical Nursing instructor whose exam was missed.

   B. Classroom presentations for a major grade must be presented at the scheduled time unless there are extreme extenuating circumstances. No alternate assignment will be given instead of the presentation. The presentation will be made up on a date determined by the instructor if it is an extreme, extenuating circumstance only.

   C. Class Remediation
      1. If a student receives less than a 78% for a unit exam in any nursing course, the student will be required to complete remediation activities.
      2. The student will be required to meet with the Practical Nursing faculty member of the related nursing course.
      3. The remediation assignment will be determined by the individual Practical Nursing faculty member.
      4. The meeting must be scheduled by the next class day and the assigned remediation must be completed before the next scheduled exam.
      5. Failure to meet with instructor or complete remediation will result in reduction of points as outlined in the Exam/Presentations section.
D. Clinical Remediation
   1. When a student obtains a "Needs Improvement" (NI) on any of the indicators used on the "Clinical Performance Evaluation" form they will be required to complete remediation.
   2. This remediation and due date will be determined by the designated Practical Nursing faculty member.
   3. Complete the remediation form.

Test Question Challenge
If an exam question is challenged by the student, it will only be considered if presented in the following format:
   A. The student's petition must be in writing and submitted within two (2) class days of the exam review.
   B. The student must explain why the exam answer is not the best choice,
   C. The student must provide a rationale on why they think their answer is the best option.
   D. Relevant sources must be cited.

If a petition is submitted to challenge an exam question, this does not guarantee that the faculty will change the answer, throw the question out, or accept multiple answers. This decision will be made within the domain of the faculty member's academic freedom.

Exams, Projects, Clinical Paperwork, and Homework
   A. The student will have one week from the date the grade is received to challenge the points earned.
   B. Grades for assignments that are worth exam points and clinical paperwork can be challenged within the context of these guidelines.
   C. The challenge must be submitted in a written form.
   D. The faculty reserves the right to determine if points will or will not be awarded.
   E. If the student waits beyond one (1) week time frame, the challenge to the grade will not be accepted unless under extreme, extenuating circumstances.
   F. If the student wishes to appeal the course grade, the student must follow the college's grade appeal process.

5. Quizzes
A quiz may be given at any time. It may be announced or unannounced. Quizzes that are missed may not be made up and a grade of "0" will be given. If the student is absent or late for class and a quiz has already been initiated by all members present, the student will receive a grade of "0" for that quiz. Challenges to quiz questions must occur within one (1) week of the date the grade was received.

6. Homework, Lab, or Clinical Written Assignments
All assignments are due in their entirety on the assigned date and time. No late homework assignments will be accepted. Extreme, extenuating circumstances will be evaluated by the PN Faculty, PN Coordinator, and the Dean or Director of Health Sciences.
For extreme, extenuating circumstances it may be warranted, but not limited to the following:

1. Illness or self or immediate family that requires urgent medical care, hospitalization, or emergency treatment. The student will provide documentation or a physician's excuse to verify illness.

2. Any absence necessitated by the death of an immediate family member will require documentation. Bereavement leave is only granted for up to three (3) consecutive days. Immediate family includes: (step) parents, mother/father, mother/father in-law, brother/sister, brother/sister in-law, (step) siblings, (step) children, (step) grandchildren, spouse, significant other, domestic partner, (step) grandparents, and legal guardians.

3. Court appearances.

Academic Standards for PN Students
Effective summer 2008, the college no longer identifies withdrawals on college transcripts as either "WU" (withdraw unsatisfactorily) or "WS" (withdraw unsatisfactorily). It simply states "W" (withdrawal). If a student withdraws from a nursing course, they must reapply for admission. The Admissions Committee will determine if a student is accepted back into the program.

Academic Dishonesty
The instructor or person accusing a student of academic dishonesty will report it to the Dean of Health Sciences. The Dean of Health Sciences will investigate the matter. If it is determined that the incident warrants further action, the guidelines in the Moberly Area Community College Student Handbook will be followed for dealing with students being accused of being academically dishonest.

A student who has committed an act of academic dishonesty has failed to meet a basic requirement of satisfactory academic performance. Thus, academic dishonesty is not only a basis for disciplinary action, but is also relevant to the evaluation of the student's level of performance. Academic standards require that students do not cheat, or knowingly assist another to do so. Other unacceptable behavior includes plagiarism, which is the submitting of someone else's work as our own, and the unauthorized access to or changing of grades or examinations. All phones must be off and out of site during exams. Any cell-phone visible during an exam could constitute Academic Dishonesty.

For additional information, refer to the Academic Dishonesty policy located in the RedBook.

Examinations
Testing Rules for Nursing Students
Nursing students are held to the highest standards for ethical behavior. Per college policy in the MACC RedBook Enrollment Guide (p.14), "MACC expects students to conduct themselves in an appropriate, ethical, and legal manner at all times. Moberly Area Community College will not tolerate academic dishonesty.

Cheating is an act of deceit and fraud. The act of cheating includes, but is not limited to, copying another student's work, using unauthorized sources during a test or assignment, submitting the work of another as one's work, altering grades, and gaining unauthorized access to exams or other materials. Students must maintain the integrity of their academic performance. A student's work must accurately represent his or her own knowledge and skills.
Accusation of academic dishonesty puts the burden of proof on the student, not the instructor. Whether intentional or unintentional, all instances of academic dishonesty could have one or the other following consequences (this list is not exclusive): reduction of paper/test/project grade; failure of paper/test/project with a re-write or re-creation; reduction of course grade; expulsion from the course; or expulsion from MACC.

In order to prevent academic dishonesty and protect students, the nursing program has developed the following rules and procedures:

1. Every student is expected to be punctual and arrive on time for testing.
2. Students shall place all belongings, including communication devices, book bags, backpacks, handbags, hats, and coats at the front of the room.
3. Electronic devices including but not limited to, smart watches, cell phones, mobile phones, cameras, pagers, headsets (except headphones for HESI exams), computers, or any other electronic communication or photographic devices, etc. that have access to internet are not allowed.
4. Students may have a pen or pencil.
5. Faculty or proctor will provide each student with a blank sheet of paper to utilize for calculation purposes. This paper is for calculations only and may not be used for other purposes. This paper will be returned to the faculty member or proctor upon exiting the testing room.
6. Students may use a calculator during the test, however, this must be approved or assigned by the instructor. *You may not use your cell phone as a calculator.
7. Students shall keep their eyes on their own computer at all times.
8. Students shall remain quiet and cannot converse with each other during testing.
9. Students may raise their hand if they experience problems with the test or have a question. The faculty member or proctor will attempt to resolve any issues, but cannot answer questions about test questions specifically.
10. No food or drink products are allowed during testing.
11. Any non-compliant behavior will be considered academic dishonesty and will result in an accusation of academic dishonesty and can result in the student receiving a zero on the test.

HESI standardized exams and the NCLEX-PN Live Review are required components of the nursing curriculum. HESI standardized exams are administered upon completion of selected nursing courses and a HESI exit exam is given upon completion of the entire nursing program. The purpose of the NCLEX-PN Live Review and the utilization of standardized testing is to assist in evaluating the learning outcomes and to assess the student's readiness to take the licensure exam.
Cost
*Please note, this is a cost estimate. Costs will vary depending on personal preference/selection of certain items and fluctuating costs of books; HESI fees; etc.

Note: Costs are subject to change by the MACC Board of Trustees without notice. Moberly Area Community College retains the right to cancel course offerings when enrollment is too low to make a course educationally sound and economically efficient. Course cancellation will result in refund of tuition for the canceled class.

**Upon Program Entrance**

MHA Management Services Corporation is used to complete necessary background checks. The flat fee is $5.75, there is additional cost for the FCSR (Family Care Safety Registry) of $16. There may be additional fees as well, dependent upon the student’s marital status and the number of states that the student has lived in over the past 10 years (name changes and multiple states to check increases the cost), the highest cost ever observed by the program is $240.

**Books**

Fall $400; Spring $525; Summer $100

**Miscellaneous Supplies**

Binders, note cards, pencils, pens, folders, flash drive, paper, notebooks, calculator, SD card, USB headseat -- cost will vary depending on quantity and specifically what student chooses to purchase.
Clinical Supplies
Name Tags (2 required) $6 each, Stethoscope $60-$90, Pen light $6, Bandage Scissors $6-$13, Gait Belt $10-$15, Nurses Kit is available in our bookstore (includes a pen-light, multi-color ink pen, bandage scissors) $12, Scrubs 2 pair required $40-$75 per pair, Watch with second hand $10, Shoes $40 -- cost will vary depending upon what student chooses to purchase.

Clinical Site Vetting
Students are required to be vetted through their individual clinical sites, vetting requirements vary per clinical site, students can reasonably expect to be required to complete Urine Drug screen approximately $45 annually. Clinical sites may require repeated drug screens. A Urine Drug Screen may also occur upon reasonable suspicion. Immunizations and TB Skin Test obtained by student, based upon student's insurance coverage and co-payments. CPR Certification $35-$60 depending on where certification is obtained, MUST be certified by the American Heart Association and as a Health Care Provider.

Missouri State Association of Licensed Practical Nurses Membership (MOSALPN)
Membership is optional but encouraged.

HESI Fees
HESI is an acronym that stands for Health Education Systems, Inc., which is a company that produces standardized tests for students to take. This test measures where a student is at in their program and assists with 3 preparations for the National Council Licensure Examination (NCLEX). The fee is paid in 3 separate payments and is approximately $120/semester.

Missouri League for Nursing Conference
Students attend one conference per year in the spring. Conference registration is approximately $55. Hotel expense is approximately $100/per student. Students must provide their own transportation and pay for their meals.

Pinning Fees
Approximately $100 -$125, includes the pinning fee; pin and approximately 10 invitations. Photo cost varies, depending on student selection, average cost $30.

Preparation for NCLEX Examination
Near program completion, students are required to complete an application to the Missouri State Board of Nursing for eligibility to sit for State Board Licensure; Criminal Background Check to accompany the application $40-$60. Students are also required to pay an NCLEX registration fee $200 (Pearson Vue).

Miscellaneous
Students are responsible for their own transportation to and from the college and to and from places of clinical experience and educational workshops.

PN Students can participate in the college graduation ceremony in May if they wish to do so, it is optional. If the student chooses to participate, they must apply for graduation.

Students are required to maintain personal health insurance.
Refund Policy

Tuition and fees may be refunded according to the following policy:

1. Official withdrawal initiated by the student through the Office of the Dean of Student Affairs and Enrollment Management within the two (2) weeks of classes for regular fall and spring 16-week semesters, or the equivalent ratio of regularly scheduled two-, four-, or eight-week sessions - 100% refund (refer to academic calendar for applicable deadline dates)

2. Withdrawals after the first two weeks of classes for regular fall and spring 16-week semesters or the equivalent ratio or regularly scheduled two-, four-, or eight-week sessions - No refund

3. Students unable to begin classes after they have enrolled must initiate withdraw from all classes to be eligible for a reduction of tuition and fees charged. Official withdrawals after the first two weeks will be subject to a $200 administrative fee.

4. Refunds for students called to military service are authorized on an individual basis by the President of the college.

5. Refunds will not be given for business and industry courses and adult and community education courses.

6. An international student who has not yet enrolled in classes will be eligible for a 100% refund of the $1,200 deposit upon his/her release of the I-20 which the College provided to the student. If the student is unable to obtain the original I-20 document, a signed statement by the student declaring his/her intent not to enroll at Moberly Area Community college will be required. Upon receipt of this letter (declaration of intent) the College will provide a 100% refund of the student's deposit. This declaration of intent will be forwarded to Immigration and Naturalization Service (INS) in order to change his/her visa status. An international student who has enrolled in classes is subject to the refund policy as stated in the catalog. Additionally, these students should be approved by the Dean of Student Affairs and Enrollment Management prior to dropping any or all courses registered for that semester.

7. If a student receives financial aid for federal Title IV programs (Federal Pell, Federal SEOG, Federal Stafford Loans) and withdraws from all classes prior to completing more than 60% of the enrollment period, he or she may be required to return federal Title IV funds. Under the Reauthorization of the 11 Information contained in this publication is subject to change without prior notice and shall not constitute a binding agreement on the part of the College. 3/4/2019

You will owe tuition and fees unless you officially withdraw within the add/drop period specific to your class. Failing to attend a class, ceasing to attend a class, or calling the college does not constitute an official withdrawal. Higher Education Amendments of 1998, the amount of a student's federal aid is adjusted, based on the length of time that student is enrolled. Students will be required to repay aid they have received that exceeds the adjusted federal aid amount.

8. In the event of extreme extenuating circumstances and with proper written documentation, a partial or total refund may be granted to a student beyond the standard refund terms. Such refund requests will be reviewed by the President of the College and will be determined on a case-by-case basis.

Criteria for Transfer

Students are accepted in the Practical Nursing program as a transfer student on an individual basis if a position is available. The following information is needed to determine the student's standing:

1. A written request is received from the individual to the Practical Nursing Coordinator.

2. Official transcripts from high school, GED, colleges or universities attended.

3. Syllabus with course objectives, outlines, and content for all nursing courses taken.

4. Letters of recommendation from the Director of the student's previous nursing program and two instructors.
5. Meet admission requirements of MACC Practical Nursing program.

6. Transfer students shall meet all criteria of other students in the program, and a planned program shall be set up for the students to enable them to fulfill the same requirements for graduation as all other students in that class. This information should be entered on the ensuing State Board report after admission. In the event that said transfer would cause the school to exceed their limits by more than one student, permission from the State Board of Nursing must be obtained prior to admission.

7. Nursing courses are acceptable for up to two years. There is no limited opposed to transferring Anatomy credit. Physiology credit is acceptable up to five (5) years. To obtain credit, a "C" or above grade must be achieved.

8. Transfer of CLEP or Advanced Placement tests for foundational courses such as Anatomy and Physiology will not be accepted.

If a student is applying for the PN program at MACC and has been in the ADN program at MACC within the last two years and has taken NUR 101-Fundamentals of Nursing (6 credit hours) and obtained a "C-78%" or above grade and passed the lab/clinical, the student may take the PNC 120 (3 credit hours) and PNC 128 (6 credit hours) final exams. If the student passes the Foundation finals with a "C-78" they will be awarded 3 hours of standing credit for the Practical Nursing program.

NUR 111 Mental Health Nursing (4 credit hours) will substitute for two credit hours of PNC 126 Mental Health.

In order to receive credit for Medication Administration (2 credit hours for the Practical Nursing program) the content must include the following:

Math calculations, percutaneous, parental, enteral, oral routes of medications, NG tube meds, NG feedings, laws, safety of medication administration, rules, 6 rights, history of medication administration, site drugs, pharmokinetics, and intravenous therapy in order to meet the course requirements of PNC 125 Medication Administration for the Practical Nursing program.

Medication Administration final for the Practical Nursing program at MACC will have to be passed with a 78% or above. The above courses must have a grade of "C" or better and not be over two (2) years old at the date of entry into the Practical Nursing program.

Criteria for Readmission

Students who receive a grade of "D" or "F" in two (2) nursing courses or in the same nursing course two (2) times will be dismissed from the program without consideration for readmission. Students who receive a grade of "D" or "F in clinical in two (2) nursing courses or in the same nursing course two (2) times will be dismissed from the program without consideration for readmission. Students receiving a grade below "C" (78%) in a nursing course may, after readmission is approved, repeat that course one time. Failure to achieve a grade of "C" (78%) the second time will result in dismissal from the program without consideration for readmission.

Students who fail or withdraw from the first semester nursing courses or science courses must begin to initial admission process through application. A student seeking readmission after being out of the program for two (2) years must re-apply as a new student. All students must submit a written request for readmission to the Practical Nursing Coordinator. The Practical Nursing Coordinator will obtain recommendations from the Practical Nursing faculty on all readmissions. The request will be evaluated
by the PN Admissions Committee based on the recommendations from faculty and the probability of success.

**Applicants must provide all of the follow items upon seeking readmission:**

1. Current MACC and Practical Nursing applications
2. Notarized Essential Qualifications form and Sate of Missouri Nursing Practice Act
3. Submit a signed Release of Information Form
4. Submit to and pass a current criminal background check
5. Submit to and pass a Caregiver screening
6. Submit a written request for readmission to the PN Coordinator
7. Submit to and pass a Urine Drug Screen (to be completed after readmission is approved and prior to the start of their clinical practicum)

The Practical Nursing Coordinator will obtain recommendation from the Practical Nursing faculty prior to readmission. After submission of all required forms and documentation, the readmission information will be reviewed by the Admissions Committee. If the decision for readmission is approved, it can only be granted on a space available basis.

If a student is seeking readmission for the fall semester of the Practical Nursing program, the student may take Physiology concurrent with the start of the nursing courses for that semester if a grade of "C" or better was received in Anatomy. Physiology credit is only acceptable up to five (5) years.

1. Students must pass with a minimum of 78% on the comprehensive final exams from all previously completed courses with a clinical/lab component (Foundations of Nursing I and II, Medication Administration, Nursing Care of Children, Nursing Care of Adults I and II, Maternal Newborn Nursing, and IV Therapy). If the student passes these exams, then validation of skills will occur. If a student is unsuccessful in passing any of the comprehensive finals, the course(s) will have to be repeated.

2. Videos covering nursing skills are available from the Practical Nursing faculty. The Practical Nursing Coordinator may require these videos to be viewed prior to readmission. This will be done on the student's own time.

3. Students will demonstrate proficiency of the following skills under the direction of the Practical Nursing faculty. If the student does not demonstrate mastery on the first attempt on one or more of the following skills, they will not be allowed readmission into the Practical Nursing Program. The time must be scheduled with the Practical Nursing Coordinator.
   a. Sterile Dressing Changes
   b. Sterile Catheterization (both male and female)
   c. Vital Signs
   d. Medication Administration: Parenteral Injections: Intradermal, Subcutaneous, and Intramuscular, including needle size, syringe, gauge, length, and angle. Know the sites to utilize for each injection.
   e. Head to Toe Physical Assessment

4. Students' American Heart Association for Health-Care Provider certification and physical must be current and in their files in the Health Sciences Office in c-12 or in the Nursing Administration offices at the MACC-Mexico High Education Centers in Mexico, MO or at the Columbia Area Career Center in Columbia, MO. The CPR, physical form, current TB test, Varicella and Rubella blood titers, urine drug screen, and immunizations need to be completed prior to beginning school. If the above area not in the student's file, they will not be allowed to attend lab/clinical.
5. Students must obtain and review the most current Practical Nursing Student Handbook. The forms in the appendices of the handbook must be signed and returned to the Practical Nursing Coordinator.

6. Students must have their previous competency skills checklist available or purchase a new form from the bookstore at Moberly Area Community College or in the Resource Center at MACC-Mexico High Education Centers in Mexico, MO or in the Resource Center at Columbia Area Career Center in Columbia, MO. This checklist is required and must be available for the beginning of the semester.

7. In the event readmission would cause the school to exceed its limits by more than one student, permission from the State Board of Nursing must be obtained.

Probation Policies
Probation is the status given to a student during which time deficiencies must be removed or corrected. Probation is warranted by, but not limited to the following:

1. Clinical action which may be dangerous to client welfare
2. Non-professional conduct -- includes but is not limited to the following:
   a. Inappropriate verbal and/or nonverbal behavior to clients, staff, peers, or faculty
   b. Failure to maintain client confidentiality
   c. Failure to stay within the boundaries of clinical practice for a student enrolled in a Practical Nursing program
   d. Dishonesty, prevagination, or falsifying information related to any aspect of the Practical Nursing program.
   e. Disruptive classroom behavior that inhibits the learning process will be disciplined according to the policy outlined in the MACC Student Code of Conduct
3. Violation of written or oral instructions
4. Continued negligence or lack of responsibility
5. Absenteeism and tardiness
6. Academic Dishonestly for first offense; however grievous the incident (s) could result in additional sanctions

Recommendation for probation will be made by the faculty, Coordinator, and Director of Health Sciences to the Dean of Health Sciences. If a student fails to show immediate and sustained improvement, dismissal from the program will follow.

Dismissal Policy
Dismissal is the discontinuance of the student from the nursing program. This can be immediate pursuant to or after failure to satisfactorily complete a probationary period depending on the act. Dismissal is warranted by, but not limited to the following:

1. Unprofessional conduct or any act derogatory to the morals or standing of those engaged in the care of the sick
2. Negligent act or irresponsibility which may result in serious or potentially serious harm to the client
3. Illegal use and/or possession of drugs or controlled substances that are known to have mind-altering or function-altering effects upon the human body or that impairs one's ability to safely perform
4. Inappropriate use of drugs or alcohol
5. Conviction of felony or crime
6. Guilty of fraud, deceit, misrepresentation or omission of information that could affect the application process in gaining admission into the Practical Nursing program
7. Breach of confidentiality of client information
8. Academic dishonesty
9. Any of the probationary items on which a student does not show immediate and sustained improvement

Students who have been dismissed for the above stated reasons (1-9) will be dismissed from the Practical Nursing program and may not be eligible for admission into other programs in the Division of Health Sciences at Moberly Area Community College.

Recommendation for dismissal will be made to the Director and Dean of Health Sciences by the Practical Nursing Faculty and Coordinator. The recommendation will be taken to the President's Administrative Council for action. The student may appeal an action under the due process of the institution.

**Attendance/Tardiness**

Attendance is mandatory for all nursing classes, laboratory, and/or clinical, field trips, workshops, and seminars. Refusal to participate in scheduled activities will be considered an absence. Any student who misses two (2) consecutive weeks of class during a regular sixteen (16) week semester or the equivalent proportion of class time during a shorter session will be dropped from that class by the instructor unless justification is supplied. Additionally, any student who misses more than one-fourth ($\frac{1}{4}$) of the entire number of in-seat class meetings in a regular sixteen (16) week semester or the equivalent proportion of class during a shorter session may be dropped from that class by the instructor, if in the opinion of the instructor, the student does not have reasonable opportunity to succeed in the class. A student's attendance rate will be calculated based upon the first day of the semester (not the student's date of enrollment in the course).

Student attendance must be defined in a different manner for online, hybrid, or virtual courses. Student attendance in these courses is defined as active participation in the course. Online, hybrid, and virtual courses will at minimum, have weekly mechanisms for student participation such as any of the following methods:
1. Completion of quizzes or exams
2. Submission of assignments
3. Participation in threaded discussions
4. Communication with instructor

A student who does not participate in an online, hybrid, or virtual course for two (2) consecutive weeks will be dropped by the instructor unless acceptable justification is supplied. As with ground courses, a student's attendance rate in online, hybrid, or virtual classes will be calculated based on the first day of the semester. If a student does not demonstrate active participation in the entire course within the first two (2) weeks, (or the equivalent proportion of class time during a short session) the student will be dropped as "never attended". Students should be aware that their dropping a course and their last date of attendance in their course may affect their financial aid.

Any absence requires notification by phone to the Health Sciences Office at MACC-Moberly (1-660-263-4100, ext. 11250) or the MACC-Mexico Higher Education Center (1-573-582-0817, ext. 13619) or the Columbia Area Career Center (1-573-214-3800, ext. 29801) to a member of the Practical Nursing faculty prior to the scheduled start of class.
Prior notification is mandatory for all scheduled appointments. Any absence of three (3) consecutive days due to illness will require a written statement from a physician. A physician's release will be required to class or clinical. If a student is absent for a total of five (5) consecutive days, the student must meet with the faculty concerning excessive absences.

Usage of Clinical Laboratory
The clinical lab is available to students for additional psychomotor practice and must be done with faculty present. Equipment and other clinical supplies such as syringes, needles, catheters, or any other devices are not to be removed from the clinical laboratory. The clinical lab area is monitored and students violating this policy may be subject to further disciplinary action. The college will not be held liable for students performing procedures outside the premises of the college's clinical laboratory setting.

Clinical Attendance
Tardiness or absences will not be tolerated.

A. When 10% of the clinical practicum is missed for any nursing course, the student may be dropped from the program unless extreme, extenuating circumstances exist.

B. At the clinical instructor's discretion, a student may be dismissed from the clinical setting if the student does not demonstrate the following:
   1. Completion of required paperwork assignments for his or her assigned client
   2. Adherence to the clinical dress code
   3. Timeliness to clinical assignment and/or submission of report on assigned client

C. Any incidence of "no call" or "no show" will be evaluated by the PN Coordinator any the Dean or Director of Health Sciences.

D. Any circumstances identified in item B or C will constitute a clinical absence for that day. Clinical paperwork and clinical performance may be made up only under extreme extenuating circumstances. The student could receive a "0" for the day.

E. The student is responsible for contacting the clinical agency for absences. The student must contact and speak directly to the clinical instructor prior to beginning of the clinical rotation for any absences.

Clinical Cancellation
Clinical may be canceled by the clinical instructor or in consultation with the Coordinator of Practical Nursing due to inclement weather, illness, or other circumstances. The plan for make-up clinical will be made jointly. The instructor will attempt to notify the students in a timely manner.

Clinical Practicums
Students are assigned to perform clinical practicums, negotiated through Moberly Area Community College, in a variety of health care settings. Should a student fail the required background screenings, the student will be unable to complete the clinical component of their educational process. Consequently, the student will be unable to complete the Practical Nursing program at MACC.

Positive Criminal Background Checks and Urine Drug Screen Reporting Policies
If the Health Sciences Division at Moberly Area Community College has any student with a positive Criminal Background Check and/or Urine Drug Screen, the following reporting system will be utilized to report the results to clinical sites and to students.
1. All Health Sciences students must sign the "Release of Information" form so this information may be released to the clinical facilities. A copy of this form will be in the student's file in the appropriate Health Sciences office.

2. If a positive Urine Drug Screen is found on any Health Sciences student, the student must provide the program with a copy of the prescription verifying the medication prescribed and a written letter from the physician who prescribed the medication verifying why the student is taking the medication. This documentation must be kept for the student's file.

3. If no prescription and/or letter from the physician is obtained by the student, or an illegal drug is found in their Urine Drug Screen, a student will be immediately dismissed from the program in which they are enrolled.

4. For positive criminal background checks and Urine Drug Screens, documentation will be submitted to the appropriate clinical sites at the beginning of each semester stating the student's name and information related to the current situation.

5. A letter will be written and a copy provided to the student notifying him/her of the positive results. The student will also be notified if any of the clinical sites deny him/her clinical privileges. The student may be dismissed from the program in which they are enrolled at any time if admission to a clinical site is denied.

6. The appropriate Health Sciences Admissions Committee may accept or decline any student who has a positive criminal background check prior to the beginning of the program. If a crime is committed during the time in which the student is enrolled, the situation will be evaluated by the Director and Dean of Health Sciences. The Dean of Health Sciences will confer with the President's Council to obtain a final decision.

7. Moberly Area Community College reserves the right, at the College's expense, to drug or alcohol test any student enrolled in MACC Health Sciences programs. Students refusing to abide by this policy will be immediately dismissed from the program in which they are enrolled.

8. A dilute urine drug specimen is not acceptable and will require re-testing.

9. A Urine Drug Screen will need to be done annually as required by clinical sites at the student's expense.

**Leave of Absence**
There will be no leave of absence granted.

**Vacations and Holidays**
Vacations and holidays are scheduled according to the dates determined by the faculty and administration of Moberly Area Community College. Holidays observed include Labor Day, Columbus Day, Thanksgiving, Christmas, New Year's Day, Martin Luther King Day, President's Day, Easter, Memorial Day, and Independence Day. Spring break (March - one week) and a summer break (one week, dates to be determined as outlined on academic calendar). Classes will not be in session the week of Thanksgiving (dates to be determined as outlined on academic calendar).

**Employment Policy**
It is recommended that full-time student nurses be employed for no more than 16 hours per week.

**Confidential Information**
The student will learn throughout the program that information obtained about clients is confidential. This confidential information includes client records, photos, and videos. The student has both a moral and legal obligation to share this information only with other personnel who are caring for the client. The student may have occasion to read a client's past medical record. These are located in the Medical
Records Department. The student must have permission from in the instructor before going into this department. Records may not be removed from the department at any time. Copies cannot be made of any part of the client's medical record. Availability of this department may vary from agency to agency. Any student who violates confidentiality will be subject to probation or dismissal. A confidentiality statement will be signed and placed in the student's file.

**Smoking Policy**
Smoking will not be permitted at any Moberly Area Community College premise. See MACC Smoking Policy.

**Food and Drink Policy**
Light snacks and bottled water are allowed in the classroom. Drinks or food are not allowed in the computer rooms or around computers.

**Personal Electronic Data Services**
Technological devices may only be used if they can assist in the student's academic success. Anyone not using a device for this purpose will result in having the device turned off and confiscated at the time. The device will be returned to the student at the end of the scheduled day. Cell phones must be off and out of sight during class time and exams unless a potential emergency situation exists. Exceptions may be made at the discretion of the instructor.

**The Use of Social Media**
Distribution of sensitive and confidential information is protected under HIPPA and FERPA whether discussed through traditional communication channels or through social media. Also note that students must adhere to the MACC Social Media Policy as approved by the Board of Trustees.

Social media includes text, images, audio, and video communicated through such tools as blogs, Twitter, social networks such as Facebook, professional networks such as LinkedIn, video sharing such as YouTube, audio sharing such as Podcasts, photo sharing such as Flickr, Instagram, and Snapchat.

Use of social media is prohibited while performing direct patient care activities. As a nursing student, you must recognize that you have an ethical and legal obligation to maintain patient privacy and confidentiality at all times.

Do not post confidential or proprietary information about MACC, clinical facilities, patients/clients, or others with whom one has contact in the role of a MACC nursing student.

Patient privacy must be maintained in all communications. Do not disclose information that may be used to identify patients or their health condition(s). (Remember: De-identified information may be recognized by patients, their families, or their employers.)

All social media policies set forth by MACC and clinical sites will be strictly enforced.

HIPPA guidelines must be followed at all times. Ultimately, you have sole responsibility for what you post. Promptly report any identified breach of confidentiality or privacy.

Each student is legally responsible for individual postings and may be subject to liability if individual postings are found defamatory, harassing, or in violation of any other applicable law. Students may also be liable if individual postings include confidential or copyrighted information.
Violations of patient/client privacy with an electronic device will be subject to HIPPA procedures/guidelines and consequences in accordance of federal laws as stated in the Practical Nursing Student Handbook, Appendix C.

**Basic Life Support**

Students admitted to the Practical Nursing program must be trained and certified in American Heart Association (CPR) for the health care providers prior to the start of the school year. Students must maintain BLS throughout the nursing program. A copy of the current card will be placed in individual student files in the Health Sciences Office in Moberly, MO or the Nursing Administration Office in Mexico, MO or Columbia, MO. Various medical facilities in the area frequently offer BLS sessions for health care professionals.

**Immunization and Infection Control Policies**

All students must have documentation of their immunizations prior to clinical rotations. In the absence of such documentation, the student will be required to take all the necessary vaccinations as required of all students enrolling into the Practical Nursing program.

**Hepatitis B Vaccine**

Prior to the start of the school year, students and faculty will have received either all three doses of Hepatitis B Vaccine, began the three-series immunization, or have a positive Hepatitis B titer.

**Tuberculin Testing**

An initial two-step Tuberculin skin test is required prior to the start of the school year. Current health care workers with documentation of two (2) consecutive negative yearly TB tests will be acceptable. A chest x-ray must be obtained if a positive reaction has been documented.

**Physical Exam**

A physical examination and general history are required prior to the start of the school year.

**T-Dap or TD**

If the TD is older than two years, a T-dap is required prior to the start of the school year.

**Influenza Vaccination**

Vaccination against the influenza virus is to be completed annually and is required prior to doing any clinical in an assigned facility.

**Measles, Mumps, and Rubella (MMR)**

Prior to the start of the school year, the student must provide documentation of two (2) MMR immunizations, at least one after 1980, or dated results of a positive titer for all three infections: measles, mumps, and rubella.

**Varicella (Chicken Pox)**

The student must provide documentation of two vaccines at least one month apart or dated results of a positive immune varicella titer prior to the start of the school year.
Failure to comply with health program requirements will result in the students being withdrawn from all clinical courses. Entry into agencies for clinical practice will be prohibited unless the PN program has the above information on file before the first day of class. Clinical agreements with our agencies clearly state that faculty will not assign students who do not have documented proof of immunities. In the event a clinical site requests a different immunization, the student will be required to comply with the policies of that facility.

**Hospital Testing and Evaluation**

Clinical facilities may request criminal background checks and/or drug screens for nursing students doing clinical practicums in their facilities. The student will bear the cost of this diagnostic tool and must pass the screening prior to being allowed in the clinical area. Also note that clinical facilities who have a reasonable and articulated belief that a student is using or in possession of drugs, controlled substances or alcohol may request random drug screening. The student who refuses to comply with the agency's request will not be allowed to do clinical practicum in said facility. Other disciplinary action may ensue and this information will be presented to the Director and Dean of Health Sciences.

Moberly Area Community College will require a Criminal Background Investigation on prospective and admitted students as required in Sections 610.120; 43.530; and 660.317 RSMo. MACC will also make inquiry to the Department of Social Services: Division of Aging, to investigate whether the student is listed on the "Employee Disqualification List" as required in Section 660.315 RSMo. The student background investigations will be performed in order to insure student eligibility to participate in clinical observation experiences required for success within particular program curriculum. Students will also complete a form to allow the release of background information and drug screen test results. (See Appendix F)

**Classroom Dress Code**

The following classroom dress code will be followed so dress and grooming does not interfere with the educational process.

1. Pajamas and house shoes will not be allowed.
2. Pants must be worn at the hips or above; boxers/underwear/undergarments cannot be exposed.
3. Tops/shirts must completely cover the torso and cleavage at all times. Spaghetti straps are not allowed. Bra straps may not be exposed.
4. Skirts and shorts must be worn at appropriate length. Hemlines must reach the end of the fingertips when arms are fully extended downward.
5. Articles of clothing that cause excessive maintenance problems, such as cleats on boots, shoes that scratch floors, and trousers with metal rivets that scratch furniture and chairs are unacceptable.
6. Footwear is required.
7. Clothing may not advertise alcohol, tobacco, or drug products or be printed with inappropriate language.

**Students not complying with this dress code policy for the classroom shall be subject to the following:**

1. Students will be directed to abide by the above dress code to remain in class.
2. Students with subsequent violations will be dismissed from class with an unexcused absence.
3. Chronic offenses will result in further disciplinary action or probation.

This policy is not limited to the above and the administration reserves the right to make future decisions about what is considered appropriate dress.
Clinical Dress Code
Any student who violates the following general instructions will be dismissed from clinical experience. This dismissal will count as an unexcused absence. All students are to be clean, neat, and appropriately groomed:

1. Appropriate hygienic measures
2. Hair
   a. Male students will keep beard and/or mustache neatly trimmed and clean to allow for appropriate fit of face masks, face shields, and/or N95 respirators.
   b. No brightly colored or flowered clips will be used in the hair.
   c. Hair must be of a style which is bacteriologically safe for client care and appropriate for the profession. Hair should be of a natural color, not green, purple, etc.
   d. Male/female students will wear their hair either short or "up" to clear the collar.
   e. Male/female student's hair will be clean and neatly combed.
3. Female students will limit the use of makeup to a minimum.
4. Perfumed products will not be worn.
5. Fingernails will be longer than the fingertips. Nail polish should not be worn. No artificial nails.
6. No open-back, open-toed sling type clogs, sandals, or cloth tennis shoes will be acceptable in the hospital or observation experience for the safety of the student. Shoes must be a solid neutral color, clean, and in good repair.
7. All students will wear solid colored socks that cover the ankles and coordinate with the MACC nursing scrubs.
8. All students will wear name pins and a wrist watch with a second hand.
9. The only jewelry permissible is a wedding band a single pair of small stud earrings in the ear lobes only. Body piercing jewelry is not permitted in the clinical area. If the student has ear gauges, these discs should be in the earlobes and be of one solid color without print or dangling pieces.
10. A freshly laundered, wrinkle-free complete set of scrubs that are not tattered or torn will be worn to and from the clinical area. Scrub pants should be hemmed and not dragging the floor. Students in the obstetric clinical area will follow hospital policy regarding the dress code in that area. Students must also wear appropriate foundation garments, including a solid white, grey, black, or wine/burgundy t-shirt or undershirt.
11. Scrubs will be free of smoke smell while in the clinical area. No smoking is permitted on the clinical premises or during clinical hours. Students must abide by the hospital policy.
12. In any experience requiring professional attire, no strapless or backless tops or dresses/garments exposing lower abdomen or back, or garments revealing any tattoos or body piercing will be permitted.
13. In addition, the student must conform to the assigned clinical facility dress code.
14. If students do not comply with the assigned facility's dress code, and policies or procedures, the college is not obligated to provide alternate learning experiences.

Other Clinical Policies
1. **NO CELL PHONES.** Cell phones should not be on, used, or carried during the clinical experience. It is preferred that no cell phone be brought into the clinical site, however, if you are concerned about the safety of leaving the phone in your car, you may turn it off and leave it in the conference room. This policy includes all observation and preceptor clinical experiences as well.

2. **NO PICTURES** can be taken at clinical sites and facilities. Students and faculty must not take photos or videos of patients on personal devices, including cell phones. The policies of the facility should be followed for taking photographs or videos of patients for treatment or other legitimate purposes using facility provided devices. (adopted from NCSBN Guide to Use of Social Media https://www.ncsbn.org/NCSBN_SocialMedia.pdf)

3. **NO CHEWING GUM** is allowed in clinical setting.

**Graduation**
All students in the Practical Nursing program will be required to complete an application for graduation. Participation in the MACC Commencement Ceremony in May is **optional**.

Upon satisfactory completion of the requirements of the Practical Nursing program, students will receive a school pin at the pinning ceremony. The student must purchase the school pin. Students who have not completed the requirements and must make up assignments or classes missed may participate in the pinning ceremony upon recommendation of the Coordinator and approval from the Dean of Health Sciences.

**Student Due Process Grievance Procedure**
The student grievance procedure shall be according to the procedure amended and approved by the Board of Trustees. The purpose of this procedure is to resolve in a fair and equitable manner, misunderstandings, disagreements, and questions that might arise. Refer to the College website located at [www.macc.edu](http://www.macc.edu). It is available within the area of Student Handbooks tab by clicking on the RedBook.
Appendix A Revocation of Licensure Form

MOBERLY AREA COMMUNITY COLLEGE
STATE OF MISSOURI NURSING PRACTICE ACT

NOTICE TO APPLICANTS FOR ADMISSION TO NURSING PROGRAMS

Read carefully and this must be signed, notarized, and returned with your nursing program application.

1. The board may refuse to issue or reinstate any certificate of registration or authority, permit or license required pursuant to chapter 335 for one or any combination of causes stated in subsection 2 of this section or the board may, as a condition to issuing or reinstating any such permit or license, require a person to submit himself or herself for identification, intervention, treatment, or rehabilitation by the impaired nurse program as provided in section 335.067. The board shall notify the applicant in writing of the reasons for the refusal and shall advise the applicant of his or her right to file a complaint with the administrative hearing commission as provided by chapter 621.

2. The board may cause a complaint to be filed with the administrative hearing commission as provided by chapter 621 against any holder of any certificate of registration or authority, permit or license required by sections 335.011 to 335.096 or any person who has failed to renew or has surrendered his or her certificate of registration or authority, permit or license for any one or any combination of the following causes:

   (1) Use or unlawful possession of any controlled substance, as defined in chapter 195, or alcoholic beverage to an extent that such use impairs a person’s ability to perform the work of any profession licensed or regulated by sections 335.011 to 335.096;

   (2) The person has been finally adjudicated and found guilty, or entered a plea of guilty or nolo contendere, in a criminal prosecution pursuant to the laws of any state or of the United States, for any offense reasonably related to the qualifications, functions or duties of any profession licensed or regulated pursuant to sections 335.011 to 335.096, for any offense an essential element of which is fraud, dishonesty or an act of violence, or for any offense involving moral turpitude, whether or not sentence is imposed;

   (3) Use of fraud, deception, misrepresentation or bribery in securing any certificate of registration or authority, permit or license issued pursuant to sections 335.011 to 335.096 or in obtaining permission to take any examination given or required pursuant to sections 335.011 to 335.096;

   (4) Obtaining or attempting to obtain any fee, charge, tuition or other compensation by fraud, deception or misrepresentation;

   (5) Incompetency, gross negligence, or repeated negligence in the performance of the functions or duties of any profession licensed or regulated by chapter 335. For the purposes of this subdivision, "repeated negligence" means the failure, on more than one occasion, to use that degree of skill and
learning ordinarily used under the same or similar circumstances by the member of the applicant's or licensee's profession;

(6) Misconduct, fraud, misrepresentation, dishonesty, unethical conduct, or unprofessional conduct in the performance of the functions or duties of any profession licensed or regulated by this chapter, including, but not limited to, the following:

(a) Willfully and continually overcharging or over treating patients; or charging for visits which did not occur unless the services were contracted for in advance, or for services which were not rendered or documented in the patient's records;

(b) Attempting, directly or indirectly, by way of intimidation, coercion or deception, to obtain or retain a patient or discourage the use of a second opinion or consultation;

(c) Willfully and continually performing inappropriate or unnecessary treatment, diagnostic tests, or nursing services;

(d) Delegating professional responsibilities to a person who is not qualified by training, skill, competency, age, experience, or licensure to perform such responsibilities;

(e) Performing nursing services beyond the authorized scope of practice for which the individual is licensed in this state;

(f) Exercising influence within a nurse-patient relationship for purposes of engaging a patient in sexual activity;

(g) Being listed on any state or federal sexual offender registry;

(h) Failure of any applicant or licensee to cooperate with the board during any investigation;

(i) Failure to comply with any subpoena or subpoena duces tecum from the board or an order of the board;

(j) Failure to timely pay license renewal fees specified in this chapter;

(k) Violating a probation agreement, order, or other settlement agreement with this board or any other licensing agency;

(l) Failing to inform the board of the nurse's current residence;

(m) Any other conduct that is unethical or unprofessional involving a minor;

(7) Violation of, or assisting or enabling any person to violate, any provision of sections 335.011 to 335.096, or of any lawful rule or regulation adopted pursuant to sections 335.011 to 335.096;

(8) Impersonation of any person holding a certificate of registration or authority, permit or license or allowing any person to use his or her certificate of registration or authority, permit, license or diploma from any school;

(9) Disciplinary action against the holder of a license or other right to practice any profession regulated by sections 335.011 to 335.096 granted by another state, territory, federal agency or country upon grounds for which revocation or suspension is authorized in this state;
(10) A person is finally adjudged insane or incompetent by a court of competent jurisdiction;

(11) Assisting or enabling any person to practice or offer to practice any profession licensed or regulated by sections 335.011 to 335.096 who is not registered and currently eligible to practice pursuant to sections 335.011 to 335.096;

(12) Issuance of a certificate of registration or authority, permit or license based upon a material mistake of fact;

(13) Violation of any professional trust or confidence;

(14) Use of any advertisement or solicitation which is false, misleading or deceptive to the general public or persons to whom the advertisement or solicitation is primarily directed;

(15) Violation of the drug laws or rules and regulations of this state, any other state or the federal government;

(16) Placement on an employee disqualification list or other related restriction or finding pertaining to employment within a health-related profession issued by any state or federal government or agency following final disposition by such state or federal government or agency;

(17) Failure to successfully complete the impaired nurse program;

(18) Knowingly making or causing to be made a false statement or misrepresentation of a material fact, with intent to defraud, for payment pursuant to the provisions of chapter 208 or chapter 630, or for payment from Title XVIII or Title XIX of the federal Medicare program;

(19) Failure or refusal to properly guard against contagious, infectious, or communicable diseases or the spread thereof; maintaining an unsanitary office or performing professional services under unsanitary conditions; or failure to report the existence of an unsanitary condition in the office of a physician or in any health care facility to the board, in writing, within thirty days after the discovery thereof;

(20) A pattern of personal use or consumption of any controlled substance unless it is prescribed, dispensed, or administered by a provider who is authorized by law to do so;

(21) Habitual intoxication or dependence on alcohol, evidence of which may include more than one alcohol-related enforcement contact as defined by section 302.525;

(22) Failure to comply with a treatment program or an aftercare program entered into as part of a board order, settlement agreement, or licensee’s professional health program.

**NOTICE**
Any applicant who has been convicted of felonies and/or misdemeanors, imprisoned, on probation, on parole, or received a Suspended Imposition of Sentence (SIS) must discuss this matter with the Dean of Health Sciences.

Additional applicant concerns related to other offenses or the eligibility to be licensed must be discussed with the Dean of Health Sciences.
RECEIPT AND ACKNOWLEDGMENT

The undersigned applicant to Moberly Area Community College nursing program hereby acknowledges receiving, reading, and understanding a copy of this notice that the Missouri State Board of Nursing may refuse to issue any certificate of registration, authority, permit or license required to practice nursing in the State of Missouri for the causes set out in Section 335.066, RsMo, which are subject to amendment from time to time by the State of Missouri.

The applicant understands that completion of MACC nursing program does not mean that the Missouri State Board of Nursing or any other similar board will issue to the applicant a certificate of registration, authority, permit or license.

APPENDIX B

RECOMMENDATION FOR PREVENTION OF HIV AND HEPATITIS TRANSMISSION

All Health Sciences students will utilize the following policies regarding exposure to blood borne pathogens in conjunction with the policies of the individual clinical agencies regarding blood borne pathogens.

1. Universal standard precautions shall be observed to prevent contact with blood or other potentially infectious materials (including the following body fluids: semen, vaginal secretions, cerebrospinal fluid, synovial fluid, pleural fluid, pericardial fluid, peritoneal fluid, amniotic fluid, saliva, and any body fluid that is visibly contaminated with blood, and in all situations where it is difficult or impossible to differentiate between body fluids; and any unfixed tissue or organ from a human (living or dead) by all students’ in both laboratory and clinical settings. Consider all (patient’s) blood and body fluids to be contaminated.

2. Use extreme caution when handling needles, scalpels, and other sharp instruments (sharps) during procedures and when handling them after procedures are completed. Dispose of sharps in an approved puncture-proof container that is located as close as practical to the work area. Recapping, bending, breaking and shearing of needles/sharps is strictly prohibited in clinical settings and college laboratory.

3. Broken glassware which may be contaminated shall not be picked up by hand. It shall be cleaned up using mechanical means, i.e. dustpan and brush or tongs.

4. Always wash hands before and after (patient) contact and if contaminated with blood or body fluids. Wash hand after glove removal. Gloves do not replace handwashing techniques.

5. Students must utilize all personal protective equipment such as, but not limited to, gloves, gowns, laboratory coats, face shields or masks and eye protection, and mouthpieces, resuscitation bags, pocket masks and other ventilation devices. All protective equipment shall be removed prior to leaving the work area, and placed in the appropriately designed area or container for storage, washing, decontamination or disposal.

6. Wear gloves when handling or touching blood, body fluids, body tissue, mucous membranes, non-intact skin, or contaminated equipment and supplies. Wear glove when performing venipuncture and other blood access treatments or procedures. Change gloves after each patient contact.

7. All procedures involving blood and other potentially infectious materials shall be performed in such a manner as to minimize splashing, spattering, and generation of droplets of these substances.

8. Mouth pipetting/suctioning of blood or other potentially infections materials is prohibited.

9. Eating, drinking, smoking, applying cosmetics or lip balm, and handling contact lenses are prohibited in work areas where there is reasonable likelihood of exposure to infectious material.

10. Individuals with open lesions (injury or wound) or dermatitis (skin rash) should keep the area covered to avoid direct contact with patients, supplies and equipment until healed.

11. Clean blood and body fluid spills with agency disinfectant or a 10% solution of sodium hypochlorite (household bleach).
EXPOSURE PROCEDURE
Potential Exposure to Blood-Borne Pathogens

1. Adhere to universal precautions.
2. Report needle sticks, splashes, and contamination by wounds or body fluids to instructors and other appropriate personnel at the clinical facility site.
3. Document what the incident was, how it occurred, and the resident source involved.
4. Area should be cleaned well with soap and water. Mucous membranes should be flushed with water. Immediate evaluation must be performed by a qualified healthcare professional.
5. The resident source should be tested for Hepatitis B Surface Antigen (HBsAG) and Human Immunodeficiency Virus Antibody (HIV) only after providing counseling regarding this testing and obtaining consent for such testing.
6. The student should be counseled regarding his/her risk of Hepatitis B and HIV and offered testing for HIV. The student shall not be tested until he/she has been counseled and has given consent for HIV testing. The recommended testing schedule for HIV testing of a student post blood exposure is as follows:
   a. Time of the incident;
   b. Six weeks post incident;
   c. Twelve weeks post incident;
   d. Six months’ post incident.

*Recognize that all costs for the testing will be borne by the student.

7. If the source resident (patient) is positive for HBsAG, the student should be treated in the following manner:
   a. If the student has received the Hepatitis B vaccine series, he/she should be tested for Hepatitis B Surface Antibody (HBsAG). If adequate levels are in the blood, no further treatment is needed. If inadequate levels are in the blood, the student should receive another dose of the vaccine and one dose of HBIG.
   b. If the student has not received the Hepatitis B vaccine, the series should be started at this time and one dose of HBIG given also.

*Note: HBIG should be given within seven days to be effective.

8. If the source resident (patient) is negative for HBsAG, and the worker has not been vaccinated, use this opportunity to start the vaccine series.

9. If the source resident refuses or is unable to give consent to be tested, the patient should be evaluated via medical history for risk factors to Hepatitis B. Based upon this history HBIG may be recommended. If the student has not received the Hepatitis B vaccine series, it should be started.

10. If the resident source is found to be HIV negative, no further follow up of the student is recommended.

11. If the resident source is found to be HIV positive, is unable to give consent, or refuses to be tested, the student should be encouraged to be tested for HIV on the previously stated schedule, and should be instructed to report any febrile illness occurring within the first twelve weeks of the incident. Symptoms of febrile illness include: fever; rash; enlarged lymph glands.

12. If the source of the splash or puncture wound is unknown, each case should be evaluated on an individual basis. The student should be offered HIV testing on the previously described schedule.

13. Careful attention should be given to record keeping regarding the incident and any testing to provide and protect the confidentiality of both the resident and student member.

14. Cost incurred for testing and/or immunization are the responsibility of the student.

MOBERLY AREA COMMUNITY COLLEGE
HIV (AIDS VIRUS) STATEMENT

I have received information and recommendations for prevention of HIV (AIDS Virus) transmission.

MOBERLY AREA COMMUNITY COLLEGE
HEPATITIS B VACCINATION POLICY

In accordance with clinical facility policies and Occupational Safety and Health Administration (OSHA) regulations (Federal Register, Vol. 56, NO. 235) the following policy is set forth for all nursing, medical laboratory and emergency medical service students:

All students’ in MACC’s above listed health occupation programs are technically considered to be included in “high risk” categories of occupational exposure to blood borne pathogens by OSHA. OSHA defines “high risk” as having a minimum of one exposure to blood/blood pathogens per month and strongly recommends that all healthcare workers in high risk categories be vaccinated against Hepatitis B. Although OSHA regulations address healthcare employers and workers, they do not include students in any part of the directive.

Prior to clinical rotations, students and faculty will have received either all three doses of "Hepatitis B" vaccine or begin the series.

CONFIDENTIALITY STATEMENT

I have a responsibility to protect patient data. I understand that any information of data compiled for educational studies may not include or reflect patient identity, or any information that could identify the patient. I must hold in strict confidence all patient information obtained while enrolled as a student nurse in the Practical Nursing Program at Moberly Area Community College.

I further understand that HIPAA (Health Insurance Portability and Accountability Act) federal legislation governs the confidentiality of healthcare practitioners, and nursing students who are expected to comply with these rules. Failure to comply and/or wrongful disclosure of information may subject the individual to civil and criminal penalties as prescribed by law, including fines up to $1.5 million and imprisonment. Any breech in confidentiality may result in dismissal from the program.

☐ Obscure personal identifying characteristics when possible.
IV Therapy is a Minimum Standard as required by the Missouri State Board of Nursing for all Practical Nursing programs, Intravenous Infusion Treatment Administration, Section 20 CSR 2200-6.060.

Students must pass the Intravenous Therapy exam and the clinical component in the Nursing Care of Adults I course during the spring semester. Students must pass the exam with a seventy-eight percent (78%) "C" and pass the clinical competencies to be successful. If unsuccessful, the student will be dropped from the nursing program and assigned a grade of withdrawal for the Nursing Care of Adults I course.

I have read and understand the above statement. I have had an opportunity to ask questions relevant to the above statement as of the date indicated below.

MOBERLY AREA COMMUNITY COLLEGE
SIMULATION LABORATORY CONFIDENTIALITY AGREEMENT

As a nursing student at Moberly Area Community College, I will be participating in clinical laboratory simulations. I understand the content of these simulations needs to be kept confidential to uphold the integrity of the learning experience for myself and fellow students in all nursing programs.

I agree to maintain the following guidelines:

1. I accept that simulation is part of my clinical learning experience.
2. The simulation lab is considered a safe place to apply what I have learned in the classroom to a simulated patient situation. I will practice skills such as professionalism, communication, delegation, teamwork, and critical thinking in this environment.
3. I will treat the manikins and equipment in the simulation lab with the utmost respect and professionalism. The simulators should be treated as if they are live patients.
4. I will maintain a strict patient and peer confidentiality. This includes the scenario, my fellow students’ performance, and debriefing discussion.
5. Inappropriate disclosure or discussion of the simulation experience will be considered academic dishonesty and will result in disciplinary action according to the academic dishonesty policy in the MACC student handbook.
6. I agree to report any violations of confidentiality to an instructor or lab coordinator.
7. I acknowledge that photographs and/or video may be taken during my simulations. These may be used in debriefing and/or for other MACC purposes.

I understand the above statements and have had all the questions regarding this agreement answered satisfactorily. This agreement is valid during the duration of my student nurse career at Moberly Area Community College.

MOBERLY AREA COMMUNITY COLLEGE
TAPE RECORDING AGREEMENT

I understand that, as a student enrolled in this program, I will have access to recorded lectures for use in my personal studies only. I realize that lectures recorded for this reason may not be shared with other people without the written consent of the lecturer. I also understand that recorded lectures may not be used in any way against the faculty member, other lecturers, or students whose classroom comments are taped as a part of the class activity.

I am aware that the information contained in the recorded lectures is protected under federal copyright laws. Such information may not be published or quoted without the expressed consent of the lecturer and without giving proper identification and credit to the lecturer. I agree to abide by these guidelines with regard to any lectures recorded and available to me while enrolled as a student in this program.
