180-Day Graduate Follow-Up Summer 2019, Fall 2019, Spring 2020

INTRODUCTION

The Missouri Department of Elementary and Secondary Education (DESE), through the Division of Career Education, requires community colleges to collect placement data on alumni in career and technical majors 180 days after graduation. Data collected on graduates indicates employment status...

- in a related or non-related area,
- whether students are continuing education in a related or non-related area,
- whether students are in the military in a related or non-related area, and
- whether students are not employed and if so, the various reasons for not being employed.

Along with the DESE mandated information, this report has been expanded to capture other data associated with MACC graduates for the period covered. This data generally has been requested through various Departments that utilize specific information to complete required reports. The report is adjusted to accommodate course changes-adding/modifying/or deleting-based on the period covered.

Instructors are asked to inform Career and Technical students of the mandatory reporting of this information prior to their graduation and to advise them they may be contacted following graduation as part of the follow-up process. To assist in the collection of data, a form was compiled and is provided to graduates either directly or through instructors near the time of graduation. The form asks for academic information for the graduate as well as information on alternate contacts known to the graduate. The alternate contact information is sometimes used to assist in gathering information when attempts to contact the graduate have been unsuccessful. Follow up contacts with graduates and/or listed contacts are made when information needs to be obtained/updated for the graduate.

Graduates are encouraged to use regular mail, online, telephone, email and personal contact to provide information. Instructors, family members, emergency contacts and social media (Facebook) is also utilized to obtain information.

In some cases, follow-up contacts with graduates have resulted in assisting the graduate in their career and/or academic search such as directing them to employers, assisting with resume preparation and in seeking additional resources based on their situation. Job posting information has also been forwarded to the graduate in an effort to assist them with their job search.

Instructors are encouraged to provide the form to graduates to complete and to either return the form to the instructor or directly to the Director of Career and Academic Planning. Completed forms are compiled by the MACC Career and Technical Education, Career and Academic Planning Director, where they are

reviewed and data collected entered in a database used for completion of the Department of Elementary and Secondary Education report as well as internal review of after graduation experience.

Forms received are checked against a listing of graduates for the period being covered. A form is completed for each graduate listed who did not submit a form. This provides consistency in the information requested and becomes the basis on documenting the information requested as well as attempts to contact the graduate. Relevant information received is placed on the reverse of the form for reference purposes. Information is entered into an Excel and updated throughout the follow-up period.

The form used is reviewed and modified as the information needed is adjusted. Suggestions from instructors have resulted in several adjustments to the form. Some changes have been made to help minimize the need for multiple contacts with graduates to obtain information needed by other personnel. Graduate response to the questions as well as response to other information is reviewed and considered.

Data gathered for this report are also utilized in the Career and Technical Education Enhancement Grant. The data shows the correlation between placement in related careers and the need to provide up-to-date, hands-on/lab experience in order to prepare graduates for these careers upon graduation of the degree program. The funding from the CTE Enhancement Grant allows MACC to purchase equipment and update program labs each year.

In the fall of 2019, the Follow-Up form was modified to include the following requests:

- Do you feel you were prepared for your employment upon completion of your degree program?
- If no, what feedback do you offer for improvement.
- Have you taken any certification OR licensure exams since graduating? If yes, please list.
- If yes, did you take a review course? Please state which review courses:

A huge thank you is extended to instructors and other personnel for their assistance in gathering information on graduates as well as providing input on increasing the effectiveness of the form used. The input helps to obtain a better accounting of the status of MACC graduates.

180-Day Graduate Follow-Up
Summer 2019, Fall 2019, Spring 2020

PLACEMENT CATEGORY DEFINITIONS

Placement definitions used are those defined by the Department of Elementary and Secondary Education (DESE). Each graduate is reported in only one of the following categories:

- **EMPLOYED RELATED (EMP R)** - Employed in a field or closely related field to their degree/certificate or training area.
- **EMPLOYED NOT RELATED (EMP NR)** - Employed in a field not related to their degree/certificate or training area.
- **CONTINUING EDUCATION RELATED (CED R)** - Continuing education in a field related to their degree/certificate or training area.
- **CONTINUING EDUCATION NOT-RELATED (CED NR)** - Continuing education in a field not related to their degree/certificate or training area.
- **MILITARY RELATED (MIL R)** - Employed in the military in a field related to their degree/certificate or training area.
- **NOT EMPLOYED (NOT EMP)** - Unemployed, but have been seeking employment.
- **NOT AVAILABLE FOR PLACEMENT (NA)**-Disability, death, other reason placement not available.
- **STATUS UNKNOWN (STS UNK)** - Unable to be located/no information available.

Totals for placement of all graduates is also included in the below noted breakdowns:

TOTAL RELATED PLACEMENT (TRP)	Total of the below noted categories: <ul style="list-style-type: none"> • EMP R EMPLOYED RELATED • CED R CONTINUING EDUCATION RELATED • MIL R MILITARY RELATED
TOTAL PLACEMENT (TP)	Total of the below noted categories: <ul style="list-style-type: none"> • EMP R EMPLOYED RELATED • EMP NR EMPLOYED NON-RELATED • CED R CONTINUING EDUCATION RELATED • CED NR CONTINUING EDUCATION NON-RELATED • MIL R-MILITARY RELATED

STUDENT SURVEY COMMENTS

Graduates are advised they can submit information online or complete a graduate follow-up form. No on-line survey information was received from graduates for this reporting period. Forms received from graduates were utilized and if a graduate did not have a form submitted, one was generated and completed based on information received/developed for that graduate. Instructors were also provided the graduate follow-up form and encouraged to advise students who were graduating to complete and return a completed form prior to their graduation date.

The graduate follow-up forms have been revised to include additional questions with the additions made based on instructor/staff input. The additional questions are noted below along with responses received. Graduates were asked to comment on their training at MACC and how this has prepared them for their career/current-related occupation. Data from these questions will be included in future reports and can be given to faculty and their advisory boards for review to assist in preparation of curriculum and alignment of overall program goals. Additionally, the information requested is targeted to assist faculty in gathering information they need for reporting purposes and this method might serve to minimize having to make multiple requests to graduates for information needed.

Some older versions of the form were received and did not have the additional questions on them.

Questions on the form and response information for the current follow-up period are:

1. *“Do you feel you were prepared for your employment upon completion of your degree program? “Yes” or “No”.* Not all graduates marked this area. Below are their responses:
 - a. *“Yes” responses:*
 - Pharmacology class.
 - Marketing very helpful.
 - Interested in Cyber Security
 - Graduate expressed need for law enforcement training in this area of Missouri and would like to see MACC start program again.
 - Sim Lab was excellent.
 - Staying home with son/plans on starting AADN program Jan 2021
2. *“If NO, what feedback do you offer for improvement.”*
 - Need more time in skills lab, especially in I.V. Therapy
 - The needs to be more teaching by the teachers and not the students teaching themselves. Reverse teaching does not work!!! This is not a profession that should have the students teaching themselves. (From nursing graduate)
 - The status of the program changed in the middle of the year resulting in an unnecessary impact on the quality of education.
 - Did not like how PN Program was coordinated.

3. *Have you taken any certification OR licensure exams since graduating? If so, please list.*
- I will within 90 days.
 - NCLEX Passed (43 indicated passing)
 - Will take NCLEX
 - I take NCLEX in June
 - NBCOT/MLT (9 noted passing)
 - COVID19 NOTE: There were 3 responses received indicating COVID19 had impacted a graduate in not being able to complete testing.
4. *If yes, did you take a review course? Please state which review course/s:*
- Will probably take HURST NCLEX Review Course
 - HURST Review
