Class days and time:  

Catalog Description: EET111: Electric Motor Controls (2-2-3)  
Participants will learn the practical application of electrical motor control principles used for installation, troubleshooting, and maintenance in an industrial setting. Topics include interpretation of electrical symbols, drawings, relay and ladder logic diagrams; motor starters, contactors, timers, and relays; solenoids and switches; fundamental motor theory; transformers and over current protection; electrical distribution and switching; and solid-state signaling and control devices. This course includes both theory and hands-on practical lab experiences.  

Prerequisite/Co-requisite:  
EET100 or EET101 and MTH130, MTH140, or MTH142 or instructor approval  

Text(s):  
Gary Rockis & Glen Mazur, Electric Motor Controls for Integrated Systems.  

Gary Rockis & Glen Mazur, Electric Motor Controls for Integrated Systems Workbook.  

Other Required Materials:  
Scientific calculator. Examples: Texas Instruments TI-30Xa, or Casio Fx-260 Solar  

Purpose of Course:
Participants will learn the basic concepts and practical application of electrical motor control principles used for installation, troubleshooting and maintenance in an industrial setting. Topics include interpretation of electrical symbols, drawings, relay and ladder logic diagrams, motor starters, contactors, timers, relays, solenoids, switches, fundamental motor theory, transformers and overcurrent protection, electrical distribution and switching. This course features both theory and “hands-on” lab experiences.

Course Objectives: Upon completion of this course, participants should be able to:

• Demonstrate a basic understanding of electrical safety related to tools and components used by industrial maintenance electricians.
• Show the ability to read and use line, logic, and ladder logic diagrams.
• Demonstrate the ability to recognize major motor control components and explain how they are used in control circuits.
• Demonstrate the ability to wire and troubleshoot motor control components and circuits used in industrial motor control applications using timers, relays, motor starter, push buttons, disconnects and/or selector switches.
• Demonstrate the ability to use and troubleshoot the proper overcurrent protection in industrial motor control applications.

Knowledge skill objectives will be achieved via lecture presentation, class discussion, reading assignments, and evaluated by paper/pencil testing consisting of quizzes, mid-term exam and final exam. Practical skills will be taught via demonstration lab practice, lab projects and practical “hands-on” wiring, use, application and troubleshooting of various electric motor control devices and circuits.

Course Content:

• Electrical tools, quantities, instruments and safety
• Electrical symbols and line diagrams
• Line diagram control logic
• Mechanical input devices
• Electromechanical relays
• Solenoids
• Motor starters
• Reversing motor circuits
• Timing and counting functions
• Programmable Logic Controllers (intro only, if time permits)
• Preventive maintenance and troubleshooting

Connection with Career and Technical Education (CTE) Outcome Statement:
In compliance with MACC’s CTE outcomes, the student who successfully completes this course will be able to:

- Demonstrate effective written and oral communication skills;
- Demonstrate an understanding of scientific principles and computational skills and how to use them to solve problems and make informed decisions;

ASSESSMENT OF STUDENT LEARNING

Grade Scale:

- A = 90-100%
- B = 80-89%
- C = 70-79%
- D = 60-69%
- F = 59% and below

Assessment:
(State the way learning outcomes will be measured. They may be measured through, but not limited to, the following: objective and essay questions, papers, quizzes, oral presentations, class participation, small group work, and/or projects.)

Expected Study Time Commitments:
Students should expect to spend approximately 2 to 4 hours per week studying, reading, and working on assignments for each registered credit hour. For example, 6 to 12 study hours per week may be expected for a 3-credit hour class.

Description of Assignment(s)/Project(s):

INSTRUCTOR POLICIES

Tardiness:
per instructor’s policy

Make-up and late work:
per instructor’s policy

Extra-credit work:
per instructor’s policy

Schedule of Student Assignments/Activities:
(Instructors will identify a Student Assignment/Activities schedule. Instructors have the prerogative to construct the schedule by class periods, weeks, or an overview of topics to be covered.)
Other:
List any other instructor policies

COLLEGE POLICIES:

Attendance:
Students are expected to attend all class sessions for which they are enrolled. The College reserves the right to drop or withdraw students from courses due to lack of attendance.

Students need to be aware that dropping/being dropped from a course and their last date of attendance in the course may impact their financial aid.

MACC faculty are required to track attendance and report lack of attendance. An instructor must complete the appropriate steps to drop a student within one week following the student’s violation of the attendance policy. Additionally, a student’s attendance rate will be calculated based upon the first day the academic session begins (not the student’s date of enrollment in the course). If a student does not attend a course as defined below, the student will be dropped as “Never Attended.”

Term Length Drop Calculations

16-week: Any student who misses two (2) consecutive weeks of class will be dropped from the course by the instructor unless acceptable justification is provided by the student and the student still has the opportunity to be successful in the course.

8-week: Any student who misses one (1) consecutive week of class will be dropped from the course by the instructor unless acceptable justification is provided by the student and the student still has the opportunity to be successful in the course.

4-week: Any student who misses two (2) consecutive days of class will be dropped from the course by the instructor unless acceptable justification is provided by the student and the student still has the opportunity to be successful in the course.

Intersession: Any student who misses one (1) day of class will be dropped from the course by the instructor unless acceptable justification is provided by the student and the student still has the opportunity to be successful in the course.

Acceptable justification may include, but is not limited to, family emergencies, illness or injury, college-approved co-curricular and extra-curricular activities, and religious holidays.

Definition of Course Attendance

<p>| In Seat Course | Physically attending scheduled, face-to-face, class meetings |</p>
<table>
<thead>
<tr>
<th><strong>Virtual Course</strong></th>
<th>Being present, via appropriate platform, for scheduled class meetings/activities</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Hybrid Course</strong></td>
<td>Physically attending scheduled, face-to-face, class meetings and active participation in the online portion of the course which may include any or all of the following:</td>
</tr>
<tr>
<td></td>
<td>• Completion of quizzes or exams during class meetings and online</td>
</tr>
<tr>
<td></td>
<td>• Submission of assignments during class meetings and online</td>
</tr>
<tr>
<td></td>
<td>• Participation in discussions during class meetings and online</td>
</tr>
<tr>
<td><strong>Online Course</strong></td>
<td>Active participation in an online course includes the following:</td>
</tr>
<tr>
<td></td>
<td>• Completion of quizzes or exams</td>
</tr>
<tr>
<td></td>
<td>• Submission of assignments</td>
</tr>
<tr>
<td></td>
<td>• Participation in threaded discussions</td>
</tr>
</tbody>
</table>

Simply logging into the Learning Management System (Canvas) and/or accessing the course and course related material does not constitute active participation for the online component of hybrid courses or for online courses. (*Policy Handbook, G.040*)

**Academic Dishonesty:**
MACC board policy is as follows: “Academic dishonesty by students damages institutional credibility and unfairly jeopardizes honest students; therefore, it will not be tolerated in any form.” Forms of academic dishonesty include but are not limited to the following: violations of copyright law, plagiarism, fabrication, cheating, collusion, and other academic misconduct. Incidents of dishonesty regarding assignments, examinations, classroom/laboratory activities, and/or the submission of misleading or false information to the College will be treated seriously. The procedure for handling academic dishonesty is outlined in the Student Handbook (*Policy Handbook G.020*). In cases of alleged academic dishonesty, the burden of proof is on the student, not on the instructor.

**Recording Class Sessions Using Zoom:**
The privacy of students is a priority in live or virtual meetings. Recordings of lectures or class meetings that share student information constitute an educational record and are protected under FERPA. Instructors may share recordings within the course section where they were originally recorded and only with the students enrolled in the section. Documented consent from each student identified in the recording is required to distribute outside of the course where it was originally recorded, or student identity must be redacted.

**Student Email:**
MACC Mail is the official student email system at MACC. Official college communication is sent via this email system. Students are responsible for checking their MACC Mail account regularly. Students may also receive notifications and reminders from MACC through the online learning
platform. However, students should remain aware that the online learning platform messaging system and MACC Mail (student email) system are two separate systems.

**ADA Statement:**
Students who have disabilities that qualify under the Americans with Disabilities Act may register for assistance through the Office of Access and ADA Services. Students are invited to contact the Access Office to confidentially discuss disability information, academic accommodations, appropriate documentation and procedures. For more information, please call either the Moberly office at (660) 263-4100 Ext. 11240 or the Columbia office at (573) 234-1067 Ext. 12120, or visit our web page at [http://www.macc.edu/index.php/services/access-office](http://www.macc.edu/index.php/services/access-office).

**Title IX Statement:**
MACC maintains a strict policy prohibiting sexual misconduct in any form, including sexual harassment, sexual discrimination, and sexual violence. All MACC employees, including faculty members, are considered mandated reporters of sexual misconduct and as such are expected to contact the Title IX Coordinator when they become aware, in conversation or in writing, of an incident of sexual misconduct. For more information on this policy or to learn about support resources, please see [http://www.macc.edu/sexual-misconduct-policy](http://www.macc.edu/sexual-misconduct-policy) or contact Ms. Cheryl Lybarger, MACC's Title IX Coordinator, at 660-263-4110, ext. 11369 or [CherylLybarger@macc.edu](mailto:CherylLybarger@macc.edu).
