Catalog Description: ITC 120 Programming I (3-0-3)
This course involves problem solving on the introductory level. Structured and object oriented programming methodologies are introduced. The student is exposed to sequence, selection, repetition and subprograms forming a strong programming foundation for later course work. A modern high-level language is used as a vehicle for mastering these concepts.

Prerequisite:
MTH100, successful completion of the appropriate module in the Computer Assisted Pre-Algebra sequence, or eligible placement score.

Required Text:
You will NEED this book by the end of the first week of class!

The Brief 6th edition would be acceptable because it contains only the first 12 chapters (which are identical to our text) without additional chapters included. The 5th edition and earlier, as well as the International edition should not be used because the content and organization of material is substantially different.

Other Required Materials:
Purpose of Course:
This course is designed to introduce the student to computer programming concepts. Students will use Microsoft’s Visual C++ or GNU C++ as the vehicle for mastering these concepts. Material presented will provide the maximum transfer of knowledge to other high level languages.

Course Objectives:
Upon successful completion of this course, students will be able to:
• Demonstrate knowledge in the discipline of computer science.
• Describe program design process.
• Use appropriate programming design and testing techniques.
• Apply common algorithms and develop algorithms to solve problems.
• Compare and contrast machine, assembly and high level languages.
• Create and use valid identifiers.
• Understand the significance of data type in data representation.
• Utilize interactive and batch stream based input and output.
• Provide appropriate error handling for file input.
• Write programs using sequence, selection and repetition control structures.
• Create and use functions.
• Create and use header files.
• Apply common string manipulations.
• Demonstrate good programming style and conventions to create working C++ programs.
• Implement simple data structures using arrays and structs.
• Implement recursive solutions to problems.

Course Content:
• Overview of Programming and Problem Solving.
• C++ Syntax and Semantics, and the Program Development Process
• Numeric Types, Expressions, and Output
• Program Input and the Software Design Process
• Conditions, Logical Expressions, and Selection Control Structures
• Looping
• Additional Control Structures
• Functions and namespaces
• Scope, Lifetime, and Recursive Functions
• User-Defined Data Types – enum, struct
• Arrays
• Compare and contrast functional, procedural and object oriented methodologies

Connection with Career and Technical Education (CTE) Outcome Statement:
In compliance with MACC’s CTE outcomes, the student who successfully completes this course will be able to:
- Students will demonstrate effective written and oral communication skills.
- Students will demonstrate an understanding of discipline-related math and scientific principles.
- Students will think critically while systematically assessing problems, identifying issues and implementing solutions.

ASSESSMENT OF STUDENT LEARNING

Grade Scale:
- A = 90-100%
- B = 80-89%
- C = 70-79%
- D = 60-69%
- F = 59% and below

A grade of “C” or higher must be achieved in all required ITC courses (prefix “ITC”) for all IT AAS degrees and certificates.

Assessment:
(State the way learning outcomes will be measured. They may be measured through, but not limited to, the following: objective and essay questions, papers, quizzes, oral presentations, class participation, small group work, and/or projects)

Expected Study Time Commitments:
Students should expect to spend approximately 2 to 4 hours per week studying, reading, and working on assignments for each registered credit hour. For example, 6 to 12 study hours per week may be expected for a 3-credit hour class.

Description of Major Assignment(s)/Project(s):

INSTRUCTOR POLICIES

Tardiness:
per instructor’s policy

Make-up and late work:
per instructor’s policy

Extra-credit work:
per instructor’s policy
Schedule of Student Assignment and Activities:
(Instructors will identify a Student Assignment/Activities schedule. Instructors have the prerogative to construct the schedule by class periods, weeks, or an overview of topics to be covered.)

Other:
List any other instructor policies.

COLLEGE POLICIES

Attendance:
Students are expected to attend all class sessions for which they are enrolled. The College reserves the right to drop or withdraw students from courses due to lack of attendance.

Students need to be aware that dropping/being dropped from a course and their last date of attendance in the course may impact their financial aid.

MACC faculty are required to track attendance and report lack of attendance. An instructor must complete the appropriate steps to drop a student within one week following the student’s violation of the attendance policy. Additionally, a student’s attendance rate will be calculated based upon the first day the academic session begins (not the student’s date of enrollment in the course). If a student does not attend a course as defined below, the student will be dropped as “Never Attended.”

Term Length Drop Calculations

16-week: Any student who misses two (2) consecutive weeks of class will be dropped from the course by the instructor unless acceptable justification is provided by the student and the student still has the opportunity to be successful in the course.

8-week: Any student who misses one (1) consecutive week of class will be dropped from the course by the instructor unless acceptable justification is provided by the student and the student still has the opportunity to be successful in the course.

4-week: Any student who misses two (2) consecutive days of class will be dropped from the course by the instructor unless acceptable justification is provided by the student and the student still has the opportunity to be successful in the course.

Intersession: Any student who misses one (1) day of class will be dropped from the course by the instructor unless acceptable justification is provided by the student and the student still has the opportunity to be successful in the course.

Acceptable justification may include, but is not limited to, family emergencies, illness or injury, college-approved co-curricular and extra-curricular activities, and religious holidays.
### Definition of Course Attendance

<table>
<thead>
<tr>
<th>Type</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>In Seat Course</strong></td>
<td>Physically attending scheduled, face-to-face, class meetings</td>
</tr>
<tr>
<td><strong>Virtual Course</strong></td>
<td>Being present, via appropriate platform, for scheduled class meetings/activities</td>
</tr>
</tbody>
</table>
| **Hybrid Course**  | Physically attending scheduled, face-to-face, class meetings and active participation in the online portion of the course which may include any or all of the following:  
  • Completion of quizzes or exams during class meetings and online  
  • Submission of assignments during class meetings and online  
  • Participation in discussions during class meetings and online |
| **Online Course**  | Active participation in an online course includes the following:  
  • Completion of quizzes or exams  
  • Submission of assignments  
  • Participation in threaded discussions |

Simply logging into the Learning Management System (Canvas) and/or accessing the course and course related material does not constitute active participation for the online component of hybrid courses or for online courses. *(Policy Handbook, G.040)*

### Academic Dishonesty:

MACC board policy is as follows: “Academic dishonesty by students damages institutional credibility and unfairly jeopardizes honest students; therefore, it will not be tolerated in any form.” Forms of academic dishonesty include but are not limited to the following: violations of copyright law, plagiarism, fabrication, cheating, collusion, and other academic misconduct. Incidents of dishonesty regarding assignments, examinations, classroom/laboratory activities, and/or the submission of misleading or false information to the College will be treated seriously. The procedure for handling academic dishonesty is outlined in the Student Handbook *(Policy Handbook G.020)*. In cases of alleged academic dishonesty, the burden of proof is on the student, not on the instructor.

### Recording Class Sessions Using Zoom:

The privacy of students is a priority in live or virtual meetings. Recordings of lectures or class meetings that share student information constitute an educational record and are protected under FERPA. Instructors may share recordings within the course section where they were originally recorded and only with the students enrolled in the section. Documented consent from each student identified in the recording is required to distribute outside of the course where it was originally recorded, or student identity must be redacted.
Student Email:
MACC Mail is the official student email system at MACC. Official college communication is sent via this email system. Students are responsible for checking their MACC Mail account regularly. Students may also receive notifications and reminders from MACC through the online learning platform. However, students should remain aware that the online learning platform messaging system and MACC Mail (student email) system are two separate systems.

ADA Statement:
Students who have disabilities that qualify under the Americans with Disabilities Act may register for assistance through the Office of Access and ADA Services. Students are invited to contact the Access Office to confidentially discuss disability information, academic accommodations, appropriate documentation and procedures. For more information, please call either the Moberly office at (660) 263-4100 Ext. 11240 or the Columbia office at (573) 234-1067 Ext. 12120, or visit our web page at http://www.macc.edu/index.php/services/access-office.

Title IX Statement:
MACC maintains a strict policy prohibiting sexual misconduct in any form, including sexual harassment, sexual discrimination, and sexual violence. All MACC employees, including faculty members, are considered mandated reporters of sexual misconduct and as such are expected to contact the Title IX Coordinator when they become aware, in conversation or in writing, of an incident of sexual misconduct. For more information on this policy or to learn about support resources, please see http://www.macc.edu/sexual-misconduct-policy or contact Ms. Cheryl Lybarger, MACC's Title IX Coordinator, at 660-263-4110, ext. 11369 or CherylLybarger@macc.edu.
