

ASSOCIATE OF APPLIED SCIENCE IN SURGICAL TECHNOLOGY

When students complete an Associate of Applied Science (AAS) degree in Surgical Technology at MACC they will be able to:

1. Demonstrate competencies for the performance of duties expected of the entry level Surgical Technologist.
2. Exemplify safe, legal and ethical care of the surgical patient.
3. Demonstrate the knowledge necessary to join the workforce as a surgical technologist.

This is our program promise.
