**Catalog Description:** ECE160 Beginning Lab in Infant/Toddler Settings 1-3-2

This course provides an opportunity to experience the daily routines and challenges of a program designed specifically for infants and toddlers (birth to 3 years) and practice implementing stimulating learning environments. Students will complete 45 hours of field experience in an approved program, weekly online assignments and two on-campus seminars.

**Prerequisite:** ECE130 Essentials of Infant/Toddler Development and ECE110 Foundations of Early Care and Education

**Text:** *No text required.*

**Recommended** Gonzalez-Mena, J. (2004). *Infants, Toddlers, and Caregivers: A Curriculum of Respectful, Responsive Care and Education* (8<sup>th</sup> ed.). Boston, MA: McGraw Hill Higher Education. ISBN: 978-0-07-3378541

**Other Required Materials:**

A filing system to store your hard copy assignments and information and a USB Flash drive to store electronic copies of work from all Early Childhood courses. A small notepad and pen for writing brief notes throughout your lab sessions and a grey or maroon MACC t-shirt from the bookstore to wear at your lab site.

**Special Facilities/Equipment:**

Students must make arrangements with an approved childcare facility that serves children from birth to 30 months of age. The facility must meet state licensing requirements and be in good standing. The lab classroom must have a minimum of four children enrolled with a full-time teacher who is available during the lab hours. Teacher/child ratio must be maintained without including the MACC student. Before the student starts the semester, the facility should be approved by the instructor. A facility agreement must be completed and signed by the student,

instructor and the facility director by the first day of classes. (See the MACC Early Childhood Program Field Experience Policies and Procedures Handbook for more detailed information and procedures.) Hybrid, virtual and online courses require regular access to a MS Office compatible word processing program and internet. For virtual classes (Blackboard Collaborate), high speed internet (DSL or Cable) is recommended.

**Purpose of Course:**

Through this course, Early Childhood students will gain experience in an Early Childhood setting early in their studies to provide a “reality check” and help them to better identify their strengths and abilities to work with children and the age and the type of setting that is appropriate for them.

**Course Objectives (CO):**

1. Uses a variety of communication strategies, including uses of technology, to link families with key community resources appropriate for specific purposes.
2. Work cooperatively with family and care teams for all children, including team participation in the development and evaluation of learning plans.
3. Provide physical and emotional security to all young children by building trusting relationships through respectful, responsive, and reciprocal interactions.
4. Recognize early social connections and use effective strategies to support young children in forming positive relationships with peers at varying developmental levels.
5. Use appropriate communication strategies to support exploration and creative problem-solving in process-focused learning.
6. Use a variety of teaching strategies, to support children’s optimal development.
7. Address curriculum standards and objectives, including the Missouri Early Learning Standards and Show-Me Standards, through a play-centered curriculum that includes the major content areas
8. Make decisions for future practice based upon self-evaluation of the effectiveness of current actions and communications.
9. Set goals for professional development based on self-assessment of current strengths, responsibilities and needs.
10. Use the NAEYC professional code of ethics for making decisions.
11. Demonstrate appropriate professional behavior.
12. Seek out professional relationships to enhance professional growth (.e.g., securing a mentor)

**Course Content:**

1. 45 hours of supervised experience in an approved Early Childhood Program for children birth to 30 months years old.
2. Online seminar discussions and mutual problem solving with peers
3. On-campus (Moberly campus) seminars three hours in length twice during the semester.

Must earn a grade of a “C” or better in all Early Childhood Education courses.*

**Statement to Connect Course with Institutional Student Level Outcomes:**

In compliance with MACC’s Institutional Student Level Outcomes, the student who successfully completes this course will be able to meet the following institutional learning outcomes:

- **Higher Order Thinking:** Students will demonstrate the ability to distinguish among opinions, facts, and inferences; to identify underlying or implicit assumptions; to make informed judgments; to solve problems by applying evaluative standards; and to reflect upon and refine those problem-solving skills. This outcome involves creative thinking, critical thinking, and quantitative literacy.
- **Communication:** Students will demonstrate the ability to communicate effectively through oral, written, or digital channels using the English language or quantitative or other symbolic systems. Students should be able to write and speak with thoughtfulness, clarity, coherence, and persuasiveness; read and listen critically; and select channels appropriate to the audience and message.
- **Managing Information:** Students will demonstrate the ability to discern when there is a need for information; and to identify, locate, evaluate, and effectively and responsibly use and share that information for the problem at hand.
- **Valuing:** Students will demonstrate the ability to understand the moral and ethical values of a diverse society; and to appreciate the values of diversity and equity.

**Evaluation of Student Learning:**

- 90-100%      A
- 80-89%      B
- 70-79%      C

If you receive a grade below a C you will have to retake the course.

- 60-69%      D
- Below 60% F

Please keep in mind that at the college level it is expected that you will spend 2—3 hours per week on homework for each credit hour earned for the course. This is a X-credit hour course, so you should expect to spend X\*2—X\*3 hours studying each week.

**General Notes:**

EC Program Policy: The ability to communicate professionally is very important for the Early Childhood Professional. Therefore, 10% of all scores will be based on grammar, punctuation and spelling.

⌘ These assignments are common to all sections of this course. Excerpts are suggested artifacts for the student’s Professional Portfolio. However, the student will select work he/she believes best reflects his/her competence in meeting the Program Outcomes. ~~⌘⌘~~These assignments must be included in the student’s Professional Portfolio.

The instructor may make changes in this syllabus including course content, schedule of activities, assignments, and point distribution to better meet the needs of the students at any time during the semester.

**INSTRUCTOR POLICIES:**

**Attendance:**

Any student who misses two consecutive weeks of class during a regular sixteen week semester or the equivalent proportion of the class time during a shorter session will be dropped from the class by the instructor unless acceptable justification is supplied. Additionally, any student who misses more than one-fourth of the entire number of in-seat class meetings in a regular 16- week semester or the equivalent proportion of class time during a shorter session, may be dropped from that class by that instructor if, in the opinion of the instructor, the student does not have reasonable opportunity to succeed in the class. A student’s attendance rate will be calculated based upon first day of semester (not the student’s date of enrollment in the course).

For online, hybrid, and virtual courses: Student attendance in these courses is defined as active participation in the course. Online, hybrid, and virtual courses will, at a minimum, have weekly mechanisms for student participation, such as any or all of the following methods:

- a. Completion of quizzes or exams
- b. Submission of assignments
- c. Participation in threaded discussions
- d. Communication with the instructor

A student who does not participate in an online, hybrid, or virtual course for two consecutive weeks will be dropped by the instructor unless acceptable justification is supplied. As with ground courses, a student’s attendance rate in online courses will also be calculated based upon the first day of the semester. If a student does not demonstrate active participation in the online course within the first two weeks (or the equivalent proportion of class time during a short session), the student will be dropped as “never attended”. Simply logging into an online class does not constitute active participation.

For Virtual/Blackboard Collaborate Attendance:

*Keep all Early Childhood Education syllabi and assignments for your Professional Portfolio.  
Must earn a grade of a “C” or better in all Early Childhood Education courses.*

In a virtual class participation includes being able to hear and respond orally during Blackboard Collaborate sessions. A working headset is mandatory to meet this requirement.

If there is a technology glitch that disconnects freezes or otherwise interferes with the instructor's transmission, you are expected to wait ten (10) minutes before leaving Blackboard Collaborate. If the instructor is not able to reconnect, or communicate with you through Blackboard Collaborate, after 10 minutes, she will post an announcement in Tristate with further instructions as soon as possible.

*Note:* Although it is the student's right to make judgments about the legitimacy of his/her absence from class, the instructor must follow college policy. It is important to notify your instructor in writing or by email in advance of planned absences and as soon as possible in the event of emergency absences, Assignments do count as part of your attendance and should be turned in even when absent. However, the instructor makes every effort to make class time valuable to student success, so absences (including tardiness or leaving early) do affect the student's ability to be successful in the course and may lead to dismissal or failure. Therefore, it is recommended that you make arrangements with another student to get notes, handouts and assignments. Students should be aware that dropping a course and their last date of attendance in the course may impact their financial aid. DO NOT contact instructor for this information.

The unique nature of a Field Experience requires specific attendance policies. Hours participating at the Field Experience site comprise the most important portion of class time. A student who misses the equivalent of two successive weeks of Field Experience or fails to document the Field Experience time through online requirements will be dropped from the class for non-attendance.

Absences should be reported both to the Cooperating Teacher or facility director and the Field Experience Instructor.

**Tardiness:**

Per instructor's policy

**Make-up and late work:**

All assignments should be submitted by [time] of the date due. You may have a **one week** extension on **three assignments** during the semester. You must contact the instructor **by email** within 24 hours of the due date and time. If contact is not made within 24 hours, a 25% deduction from the final grade will be assessed for the 24 hours after the original deadline. There will be an additional 25% deduction for each additional 24 hours the assignment is late. That means the best grade you can get on this late work is a "C" and after four days it is a "0". Since you have three free passes, there will be no further appeals accepted for late work.

**Extra-Credit:**

Per instructor policy. Must show improved mastery of the specific content of the course. It should only be granted to students who have submitted all regular work on time.

*Keep all Early Childhood Education syllabi and assignments for your Professional Portfolio.  
Must earn a grade of a "C" or better in all Early Childhood Education courses.*

There may be occasional opportunities to earn additional points in this class by completing supplementary assignments to improve mastery of material you found difficult. To be eligible for this extra credit, all regular assignments must have been submitted on time. In keeping with the program emphasis on writing skills, you may also earn an extra credit point by correcting a written error in handouts or tests produced by the instructor. Submit your correction in writing.

**Using other Sources:**

Educators commonly borrow ideas and activities from books, other teachers, co-workers, students, the Internet, magazines, workshops, etc. While it is permissible to use these resources, it is important that you tell us where you found the idea. Failure to do so is plagiarism. At a minimum, you need to cite the name of the author and title of the source or the person's name.

**Internet Requirements:**

As in the nature of an Online or Hybrid course, the bulk of the work required for student assessment must be submitted through Canvas. This requires regular access to a word processing program and internet.
