Report on the Audit of the Financial Statements

Opinions

We have audited the accompanying financial statements of the business-type activities and the discretely presented component unit of Moberly Area Community College (the College), as of and for the years ended June 30, 2025 and 2024, and the related notes to the financial statements, which collectively comprise Moberly Area Community College's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the business-type activities and the discretely presented component unit of Moberly Area Community College, as of June 30, 2025 and 2024, and the respective changes in financial position, and, where applicable, cash flows thereof for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the *Auditors' Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of Moberly Area Community College and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Emphasis of a Matter

As disclosed in Note 1, Moberly Area Community College implemented the provisions of Governmental Accounting Standards Board Statements No. 101, *Compensated Absences*. This Standard updates the recognition and measurement guidance for compensated absences. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Moberly Area Community College's ability to continue as a going concern for 12 months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Moberly Area Community College's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Moberly Area Community College's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis, the Schedules of Changes in Total OPEB Liability and Related Ratios, the Schedule of Proportionate Share of the Net Pension Liability and Related Ratios – PSRS and PEERS, the Schedule of Employer Contributions – PSRS and PEERS, and the Notes to Schedules of the College's Proportionate Share of the Net Pension Liability and Employer Contributions be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with GAAS, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audits of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 18, 2025, on our consideration of Moberly Area Community College's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of Moberly Area Community College's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Moberly Area Community College's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS
JUNE 30, 2025 AND 2024
(UNAUDITED)**

Introduction

The management of Moberly Area Community College offer users and other readers of the College a narrative overview of the financial position and financial activities of the College for the fiscal years ended June 30, 2025, 2024, and 2023. This discussion and analysis should be read in conjunction with the financial statements and notes that follow.

The College prepares the financial statements in accordance with Government Accounting Standards Board (GASB) principles. The College has implemented GASB Statement No. 35, *Basic Financial Statements - and Management's Discussion and Analysis - for Public Colleges and Universities*. GASB Statement No. 35 establishes standards for external financial reporting for public colleges and universities and requires that financial statements be presented on a consolidated basis to focus on the College as a whole. Moberly Area Community College's financial reporting entity consists of the College, as well as its discretely presented component unit, the Moberly Area Community College Foundation (the Foundation).

Three basic financial statements are included with this report, along with the management's discussion and analysis, the notes to the financial statements, and required supplementary information:

1. Statement of Net Position
2. Statement of Revenues, Expenses, and Changes in Net Position
3. Statement of Cash Flows

The emphasis of the discussion about the financial statements is on the current year data.

Statement of Net Position

The Statement of Net Position presents information on all of the College's assets, deferred outflows, liabilities, and deferred inflows, with the difference being reported as net position. The purpose of the Statement of Net Position is to present a snapshot of the financial condition of the College. Over time, increases or decreases in net position is one of the indicators of whether the financial position of the College is improving or deteriorating.

The assets and liabilities are categorized between current and noncurrent. The difference is that current assets and liabilities mature or become payable within the normal 12-month accounting/operating cycle versus noncurrent which mature or become payable after 12 months. For example, the College's current assets consist primarily of cash, short-term investments, and trade receivables while noncurrent assets consist primarily of capital assets. Capital assets are the property, plant, equipment, and right-of-use assets owned by the College, net of any related accumulated depreciation, and reduced by the outstanding balances of any borrowing used for the acquisition, construction, or improvement of those assets. Current liabilities consist primarily of accrued employee wages and benefits payable, while noncurrent liabilities are primarily comprised of long-term net pension liability.

Deferred outflows related to pension are similar to a prepaid expense related to pension payments made for future periods, while deferred inflows represent unearned revenue related to earnings of the plan for future periods.

MOBERLY, MISSOURI
MANAGEMENT'S DISCUSSION AND ANALYSIS
JUNE 30, 2025 AND 2024
(UNAUDITED)**

Pension assets and liabilities are based on actuarial valuations, which use assumptions about future events such as investment returns, discount rates, and life expectancy. These estimates change as assumptions and market conditions evolve.

Net position is presented in three major categories. The first is net investment in capital assets, which represents the College's equity in its property, plant, equipment, and right-of-use assets. The second category is restricted, while the third is unrestricted.

Restricted net position are funds that are limited in terms of the purpose and time for which the funds can be spent. Restricted position is further categorized between expendable and nonexpendable. Restricted expendable net position is available to be spent by the College after externally imposed stipulations have been fulfilled or after the passage of time. Restricted nonexpendable net position is comprised of endowments for which only the earnings can be spent.

Unrestricted net position is available to the College for any lawful purpose.

Total Net Position	\$ 61,319,757	\$ 54,047,612	\$ 51,406,769

As of June 30, 2024, current assets were elevated while noncurrent assets were lower than typical levels. This variance was primarily due to the shorter maturity schedule of investments influenced by prevailing market rates at the time of purchase. During the year ended June 30, 2025, maturing investments were reinvested into longer-term instruments with staggered maturities to lock in higher rates over an extended period.

Statement of Revenues, Expenses, and Changes in Net Position

The Statement of Revenues, Expenses, and Changes in Net Position presents the College's financial results for the fiscal year. The statement includes the College's revenues and expenses, both operating and nonoperating.

Operating revenues and expenses are those for which the College directly exchanges goods and services. Nonoperating revenues and expenses are those that are not specific, direct exchanges of goods and services. Local property tax revenue and state aid are two examples of nonoperating revenues where the local taxpayers and state legislature, respectively, do not directly receive goods and services for the revenue.

The following is a summarized version of the College's revenues, expenses, and changes in net position.

Total Operating Expenses	<u>\$ 38,461,879</u>	<u>\$ 36,726,558</u>	<u>\$ 34,021,107</u>

For the year ended June 30, 2025, the College saw an increase in net position of \$7,272,145, compared to increases of \$3,642,745 and \$5,987,835 in the two preceding years. Several factors contributed to this growth.

Operating Revenues rose by \$1.3 million from the prior year, driven primarily by a 6% increase in student enrollment and a 2.9% tuition and fee adjustment to address inflation.

Nonoperating Revenues also strengthened in 2025 and 2024, particularly in Investment Income, reflecting favorable market conditions compared to 2023.

Additionally, Nonoperating Revenues classified as Gifts and Grants were significantly higher in 2025. The College received \$1.7 million in American Rescue Plan (ARPA) funding to support a major computer networking infrastructure upgrade. Federal Pell Grant funding increased by \$1.4 million (21%) over 2024, largely due to the implementation of the FAFSA Simplification Act, which expanded access to student aid.

Operating Expenses classified as Financial Aid and Scholarships also rose, as higher Pell Grant awards resulted in increased student refunds for amounts exceeding tuition and fees.

Economic Outlook

The College's financial position remains closely tied to the economic conditions of the State and, to a lesser extent, the County. Over the fiscal years ending June 30, 2026, 2025, and 2024, the College's annual state appropriations have risen by approximately \$0.2 million, \$0.3 million, and \$0.5 million, respectively. In addition, the College benefited from multi-year workforce development grants funded through the State's allocation of federal American Rescue Plan Act (ARPA) resources related to the Coronavirus pandemic.

Student tuition and regular fee rates increased by an average of 2.8% in FY2526 and 2.9% in FY2425, while enrollment is growing by a projected 4% and 6% in those respective years.

The College continues to leverage advancements in technology to enhance operations and instruction. Recent implementations include electronic curriculum and syllabus management systems, electronic transcript processing, online payment platforms, and instructional tools such as virtual reality and simulation software.

Over the past three years, the College has invested in significant capital improvements to better serve students. These projects include a computer networking infrastructure upgrade currently in progress, a major renovation of the health sciences instructional center, and the addition of a new dormitory to expand student housing capacity.

Program offerings have also expanded to meet workforce and student demand. New and expanding programs include Commercial Driver's License (CDL) training and Veterinary Technology, with an Aviation Technology program under development and scheduled to launch in Fall 2026. Customized training programs have grown substantially to address the needs of regional employers.

To further attract and engage students, the College has introduced new athletic programs, including baseball, softball, and esports.

These initiatives position the College to effectively respond to the evolving needs of its students and the regional economy in the years ahead.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Organization

Moberly Area Community College, Moberly, Missouri (the College) is a public institution of higher education providing services to residents of the City of Moberly (the District) and the northeast 16 counties in Missouri (the Service Area). The College is a community college organized by the voters of the district and governed by a six-member board of trustees elected throughout the District. The College maintains one primary campus location and five education centers (Columbia, Hannibal, Kirksville, and Mexico). The significant accounting policies followed by the College are described below:

Reporting Entity

As required by accounting principles generally accepted in the United States, the College's financial statements present the District (the primary government), and its discretely presented component unit, The Moberly Area Community College Foundation (the Foundation). The component unit is included in the College's reporting entity because of the significance of their operations and financial relationship with the College.

Discretely Presented Component Unit

The Foundation is a nonprofit corporation and is considered to be a related organization to the College. The College Board of Trustees appoints one of its members to serve on the Foundation's Board of Directors along with 15 other independently elected directors. The College is not financially accountable for the Foundation. Although the College does not control the timing or amount of receipts from the Foundation, the majority of resources or income thereon, which the Foundation holds and invests, is restricted to the activities of the College by the donors. As these restricted resources can only be used by, or for the benefit of, the College, the Foundation is considered a component unit of the College and is discretely presented in the College's financial statements. The Foundation does not issue separate financial statements.

Basis of Accounting

For financial reporting purposes, the College is considered a special purpose government engaged only in business-type activities. Accordingly, the College's financial statements have been presented using the economic resources measurement focus and the accrual basis of accounting. Under the accrual basis, revenues are recognized when earned, and expenses are recorded when an obligation has been incurred.

Use of Estimates in Preparing Financial Statements

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and deferred outflows of resources and liabilities and deferred inflows of resources and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues, expenses and other changes in net position during the reporting period. Actual results could differ from those estimates.

JUNE 30, 2025 AND 2024**

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Cash and Cash Equivalents

The College considers all certificates of deposit and investments with an original maturity of 90 days or less at date of acquisition to be cash equivalents.

Investments

The College accounts for its investments at fair value in accordance with guidelines defined by GASB Statement No. 72. Fair value is determined for the College's investments based upon a framework described in Note 4. Changes in unrealized gain (loss) on the carrying value of investments are reported as a component of investment income in the statement of revenues, expenses, and changes in net position.

Accounts Receivable

Accounts receivable consist of tuition and fee charges to students. Accounts receivable also include amounts due from the federal government, state and local governments, or private sources, in connection with reimbursement of allowable expenditures made pursuant to the College's grants and contracts. Accounts receivable are recorded net of estimated uncollectible amounts. The College determines its allowance by considering a number of factors, including the length of time accounts receivable are past due and the College's previous loss history. The College writes off specific accounts receivable when they become uncollectible, and payments subsequently received on such receivables are credited to the allowance for doubtful accounts.

Allowance for Doubtful Accounts

The College uses the reserve method of recognizing bad debt losses. The allowance for doubtful accounts has been recorded by the College and offsets the balance of accounts receivable in the College's financial statements. The allowance is based upon management's best estimates of losses.

Property Tax Revenue

Local tax revenues represent payments earned during the years ended June 30, 2025 and 2024, from the Moberly taxing district on taxes levied for calendar years 2024 and prior.

Prepaid Expenses

Prepaid expenses represent current expenditures which benefit future periods.

Capital Assets

Land, buildings, building improvements, furniture, fixtures, and equipment are recorded at cost less accumulated depreciation for assets purchased and at acquisition value as of the date of donation for assets acquired by gift. The College's capitalization policy includes all equipment with a unit cost of \$5,000 or more, and an estimated useful life of greater than one year. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized. Major outlays for capital assets and improvements are capitalized as projects are constructed.

NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2025 AND 2024**

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Capital Assets (Continued)

Property, plant, and equipment of the College are depreciated using the straight-line method over the following useful lives:

Buildings	25 to 40 Years
Building Improvement and Other Improvements	7 to 30 Years
Equipment	5 to 15 Years

Accumulated Unpaid Vacation

College employees earn vacation during the year under various accrual rates, depending on the employee's classification and years of service. Accrued vacation is payable to employees upon termination. Accumulated unpaid vacation is accrued as earned.

Inventory

Bookstore and cafeteria inventories are recorded at the lower of cost or market.

Unearned Revenue

Unearned revenues include amounts received for tuition and fees and certain auxiliary activities prior to the end of the fiscal year but related to the subsequent accounting period. Unearned revenues also include amounts received from grant and contract sponsors that have not yet been earned. Half of the summer school tuition revenue and all tuition for school sessions starting after June 30 have been deferred to the next fiscal year.

Revenue Classifications

The College has classified revenues as either operating or nonoperating revenues according to the following criteria:

Operating revenues include activities that have the characteristics of exchange transactions, such as (1) student tuition and fees, net of scholarship discounts and allowances, (2) sales and services of auxiliary enterprises and (3) federal, state, and local grants and contracts.

Nonoperating revenues include certain significant revenues relied on for fundamental operational support of the College are mandated by GASB requirements to be recorded as nonoperating revenues. Nonoperating revenues, meaning revenues received and the College provided no goods or services, include activities such as local property tax revenues, state aid and grants, investment income and nonexchange gifts and grants.

Leases

The College is a party as lessor and lessee for various noncancellable long-term leases. The corresponding lease receivable or lease payable is recorded in an amount equal to the present value of the expected future minimum lease payments discounted by either an implicit or estimated interest rate.

JUNE 30, 2025 AND 2024**

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Subscription-Based Information Technology Arrangements

The College contracts subscription-based information technology for operating activities for various terms under long-term, non-cancelable agreements. The agreements expire at various dates through 2030 and provide for annual renewal options.

Scholarship Allowances and Student Aid

Certain aid, such as loans, including the Federal Direct Loan Program and funds provided to students as awarded by third parties, is accounted for as a third-party payment (credited to the student's account as if the student made the payment). All other aid is reflected in the financial statements as operating expenses or scholarship allowances, which reduce revenues. The amount reported as operating expense represents the portion of aid that was provided to the student in the form of cash. Scholarship allowances represent the portion of aid provided to the student in the form of reduced tuition.

Deferred Outflows of Resources

The College reports the consumption of net position that is applicable to a future period as deferred outflows of resources in a separate section of its statements of net position.

Deferred Inflows of Resources

The College reports an acquisition of net position that is applicable to a future period as deferred inflows of resources in a separate section of its statements of net position.

Defined Benefit Other Postemployment Benefit Plan

The College participates in a single-employer other postemployment benefit plan (the OPEB Plan) that provides life insurance, medical, vision and dental benefits. For purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information has been determined on the same basis as they are reported by the OPEB Plan. For this purpose, benefit payments are recognized when due and payable in accordance with the benefit terms. The College funds benefits on a pay-as-you-go basis and there are no assets accumulated in the Plan.

Pensions

The College participates in two cost-sharing multiemployer defined benefit pension plans: The Public Education Employee Retirement System of Missouri (PEERS) and Public School Retirement System of Missouri (PSRS).

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Pensions (Continued)

The fiduciary net position, as well as additions to and deductions from the fiduciary net position, of PEERS and PSRS have been determined on the same basis as they are reported by PEERS and PSRS. The financial statements were prepared using the accrual basis of accounting. Member and employer contributions are recognized when due, pursuant to formal commitments and statutory requirements. Benefits and refunds of employee contributions are recognized when due and payable in accordance with the statutes governing PSRS. Expenses are recognized when the liability is incurred, regardless of when payment is made. Investments are reported at fair value on a trade date basis. The fiduciary net position is reflected in the measurement of the College's net pension liability, deferred outflows and inflows of resources related to pensions and pension expense.

Income Tax Status

The College is exempt from federal and state income taxes as a local governmental unit. The Moberly Area Community College Foundation, Inc. has qualified for exemption from income tax under Section 501(c)(3) of the Internal Revenue Code. The Moberly Area Community College Foundation, Inc. files a Form 990, *Return of Organization Exempt from Income Tax*, each year-end. This organization's tax returns are subject to examination by the IRS. Open tax years' subject to examinations include 2020 through 2024. Any interest or penalties incurred related to income tax filings are reported within operating expenses in the statement of revenues, expenses, and changes in net position.

Restatement

The College implemented GASB 101, *Compensated Absences*, in 2025. Due to this implementation, the College restated beginning net position for 2024 as noted for the addition of accrued sick leave and the corresponding activity. This resulted in an increase in accrued compensated absences of \$1,108,695, an increase in compensation and employee benefits expense of \$106,793 and a corresponding change in FY24 ending net position of a decrease of \$1,108,695.

During fiscal year 2025, the change in accounting principle resulted in adjustments to and restatements of beginning net position, as follows:

	June 30, 2024 As Previously Reported	Change in Accounting Principle	June 30, 2024 As Adjusted or Restated
Beginning Net Position	\$ 51,406,769	\$ (1,001,902)	\$ 50,404,867

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

GASB Statement No. 101, *Compensated Absences*

In June 2022, the GASB issued GASB Statement No. 101, *Compensated Absences*. This Statement requires that liabilities for compensated absences be recognized for (1) leave that has not been used and (2) leave that has been used but not yet paid in cash or settled through noncash means. A liability should be recognized for leave that has not been used if (a) the leave is attributable to services already rendered, (b) the leave accumulates, and (c) the leave is more likely than not to be used for time off or otherwise paid in cash or settled through noncash means. As a result of this implementation, the University amended the recognition and measurement guidance for compensated absences to satisfy the criteria set forth above.

GASB Statement No. 102, *Certain Risk Disclosures*

In December 2023, the GASB issued GASB Statement No. 102, *Certain Risk Disclosures*. This Statement defines a concentration and a constraint, requires the disclosure of a concentration or constraint if it is (1) known prior to the issuance of the financial statements, (2) the concentration or constraint makes the reporting unit vulnerable to a risk of a substantial impact and (3) an event or events associated with the concentration or constraint that could cause a substantial impact has occur, or more likely than not to occur within 12 months of the date the financial statements are issued. The University implemented GASB No. 102 in fiscal year 2025.

NOTE 2 CASH, CASH EQUIVALENTS, AND INVESTMENTS

As of June 30, 2025 and 2024, the carrying amounts of cash and cash equivalents on the statement of net position total \$5,960,414 and \$6,422,618, respectively, and consists of cash deposits, cash on hand, short-term CDs, and money market accounts. The bank balances of the College's cash deposits totaled \$6,294,620 and \$4,951,004 for the years ending June 30, 2025 and 2024, respectively. The College's bank balances as of June 30, 2025 and 2024, were fully insured by the Federal Depository Insurance Corporation (FDIC) or collateralized by securities held by the cognizant Federal Reserve Bank. Of the bank balances of the Foundation's cash deposits as of June 30, 2025, \$495,451 was insured by the FDIC. Of the bank balances of the Foundation's cash deposits as of June 30, 2024, \$219,235 was insured by the FDIC.

The College's investment policies conform to the Missouri Revised Statue 30.950 which authorizes the College to invest in secured time deposits or secured certificates of deposit, bonds of the state of Missouri, bonds of the United States or any other wholly owned corporation of the United States, other short-term obligations of the United States, commercial paper and banker's acceptances. The College is also authorized to enter into government repurchase agreements.

NOTE 2 CASH, CASH EQUIVALENTS, AND INVESTMENTS (CONTINUED)

The Foundation has adopted investment and spending policies for its endowment fund. The objective of these policies is to provide the Foundation a stable source of perpetual financial support for endowments while striving to maintain the real purchasing power of endowment fund principal with principal protection and protection of purchasing power having equal importance. Under the Foundation's policies, the endowment fund shall be invested in a diversified portfolio consisting of equity, fixed income, cash equivalents, and other investments, which may reflect varying rates of returns.

Deposits

Custodial credit risk is the risk that, in the event of bank failure, the College's deposits may not be returned to it. The College's deposit policy requires that amounts in excess of any insurance limit be collateralized by the financial institution with appropriate pledged securities to protect funds which are held at the institution above the federal insurable level.

To provide an indication of the level of risk assumed by the College as of June 30, 2025 and 2024, the College's deposits are categorized below. Differences between the carrying amount and deposit amount are due to timing of transactions.

As of June 30, 2025 and 2024, deposits were categorized as follows:

 - Debt securities of the Federal Home Loan Mortgage Corporation (FHLMC) (excluding FHLMC Mortgage Cash Flow Obligations)
- Certificates of Deposit backed by acceptable collateral according to Missouri state statute

Concentration of Credit Risk – The College's investments are diversified by maturity date and several financial institutions are utilized as depositories of College funds.

Foreign Currency Risk – Foreign currency risk is the risk that changes in exchange rates will adversely affect the fair value of an investment. The College does not have any investments with foreign currency risk exposure.

As of June 30, 2025 and 2024, the College had the following investments:

Endowment Funds

The College invests endowment funds in the same manner as prescribed by their investment policy. The board has adopted an investment policy that is slightly more conservative than the restrictions established by the treasurer of the state of Missouri. The College may invest in FDIC insured or fully collateralized Certificates of Deposit as well as obligations of the U.S. Treasury and U.S. Government agencies. The Foundation additionally invests in marketable securities with readily determinable fair values and are stated at fair market value.

Unless otherwise restricted by the donors, the College expends realized net investment revenue for the purposes for which the various endowments were established. The Foundation expends funds from net realized and unrealized gains and losses as the Foundation Board deems prudent. The College, inclusive of Foundation investments, experienced net appreciation (depreciation) of approximately \$13,487 and \$15,633 in fiscal years ending June 30, 2025 and 2024, respectively.

NOTE 3 ACCOUNTS RECEIVABLE

NOTE 4 LEASES RECEIVABLE

The College, acting as lessor, leases various real estate properties under long-term, noncancelable lease agreements. The leases expire at various dates through 2037 and provide for renewal options ranging from one to five years, and interest rates ranging from 0.45% and 1.17%. During the years ended June 30, 2025 and 2024, the College recognized \$44,817 and \$1,407, and \$47,672 and \$1,669 in lease revenue and interest revenue, respectively, pursuant to these contracts. Future minimum lease payments receivable as of June 30, 2025, are as follows:

<u>Year Ending June 30</u>	<u>Principal</u>	<u>Interest</u>	<u>Total</u>

NOTE 5 FAIR VALUE OF FINANCIAL INSTRUMENTS

GASB standards established a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The fair value hierarchy is as follows:

Level 1 – Quoted prices (unadjusted) for identical assets or liabilities in active markets that the College has the ability to access as of the measurement date. Level 1 inputs would also include investments valued at prices in active markets that the College has access to where transactions occur with sufficient frequency and volume to provide reliable pricing information.

Level 2 – Significant other observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active, or other inputs that are observable or can be corroborated by observable market data.

Level 3 – Significant unobservable inputs that reflect a reporting entity's own assumptions about what participants would use in pricing an asset or liability.

NOTE 5 FAIR VALUE OF FINANCIAL INSTRUMENTS (CONTINUED)

A description of the valuation methodologies used for assets and liabilities measured at fair value, as well as the general classification of such instruments pursuant to the valuation hierarchy, is set forth below.

The following is a description of valuation methodologies used for assets recorded at fair value:

Cash Equivalents: Valued at cost, which approximates fair value.

Certificates of Deposit: Carried at cost, which approximates fair value.

Registered Investment Companies (Mutual Funds): Valued at quoted market process available on an active market which is based on the underlying net asset value (NAV) of shares held by the Plan at year-end.

Equities: Valued at quoted market process available on an active market which is based on the underlying net asset value (NAV) of shares held by the Plan at year-end.

The preceding method described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future values. Furthermore, although the College believes its valuation methods are appropriate and consistent with the other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The table below presents the College's assets measured at fair value on a recurring basis as of the years ending June 30, 2025 and 2024, aggregated by the level in the fair value hierarchy within which those measurements fall:

NOTE 8 PENSION PLANS

The College participates in two retirement plans covering substantially all full-time employees and eligible part-time employees.

Summary of Significant Accounting Policies

Financial reporting information pertaining to the district's participation in the Public School Retirement System of Missouri and the Public Education Employee Retirement System of Missouri (PSRS and PEERS, also referred to as the Systems) is prepared in accordance with Governmental Accounting Standards Board (GASB) Statement No. 68, *Accounting and Financial Reporting for Pensions*, as amended.

The fiduciary net position, as well as additions to and deductions from the fiduciary net position, of PSRS and PEERS have been determined on the same basis as they are reported by the Systems. The financial statements were prepared using the accrual basis of accounting. Member and employer contributions are recognized when due, pursuant to formal commitments and statutory requirements. Benefits and refunds of employee contributions are recognized when due and payable in accordance with the statutes governing the Systems. Expenses are recognized when the liability is incurred, regardless of when payment is made. Investments are reported at fair value. The fiduciary net position is reflected in the measurement of the district's net pension liability, deferred outflows and inflows of resources related to pensions, and pension expense. A Comprehensive Annual Financial Report (CAFR) can be obtained at www.psrs-peers.org.

NOTE 8 PENSION PLANS (CONTINUED)

Public School Retirement System of Missouri (PSRS)

General Information About the Pension Plan

Plan Description. PSRS is a mandatory cost-sharing multiple employer retirement system for all full-time certificated employees and certain part-time certificated employees of all public school districts in Missouri (except the school districts of St. Louis and Kansas City) and all public community colleges. PSRS also includes certificated employees of the Systems, Missouri State Teachers' Association, Missouri State High School Activities Association, and certain employees of the state of Missouri who elected to remain covered by PSRS under legislation enacted in 1986, 1987 and 1989. The majority of PSRS members are exempt from Social Security contributions. In some instances, positions may be determined not to be exempt from Social Security contributions. Any PSRS member who is required to contribute to Social Security comes under the requirements of Section 169.070 (9) RSMo, known as the "two-thirds statute." PSRS members required to contribute to Social Security are required to contribute two-thirds of the approved PSRS contribution rate and their employer is required to match the contribution. The members' benefits are further calculated at two-thirds the normal benefit amount.

PEERS is a mandatory cost-sharing multiple employer retirement system for all noncertificated public-school district employees (except the school districts of St. Louis and Kansas City), employees of the Missouri Association of School Administrators, and community college employees (except the Community College of St. Louis). Employees of covered districts who work 20 or more hours per week on a regular basis and who are not contributing members of PSRS must contribute to PEERS. Employees of the Systems who do not hold Missouri educator certificates also contribute to PEERS. PEERS was established as a trust fund by an Act of the Missouri General Assembly effective October 13, 1965. Statutes governing the System are found in Sections 169.600 - 169.715 and Sections 169.560-169.595 RSMo. The statutes place responsibility for the operation of PEERS on the Board of Trustees of PSRS.

Benefits Provided. PSRS is a defined benefit plan providing retirement, disability, and death/survivor benefits. Members are vested for service retirement benefits after accruing five years of service. Individuals who (a) are at least age 60 and have a minimum of 5 years of service, (b) have 30 years of service, or (c) qualify for benefits under the "Rule of 80" (service and age total at least 80) are entitled to a monthly benefit for life, which is calculated using a 2.5% benefit factor. Actuarially age-reduced benefits are available for members with five to 24.9 years of service at age 55. Members who are younger than age 55 and who do not qualify under the "Rule of 80" but have between 25 and 29.9 years of service may retire with a lesser benefit factor. Members that are three years beyond normal retirement can elect to have their lifetime monthly benefits actuarially reduced in exchange for the right to also receive a one-time partial lump sum (PLSO) payment at retirement equal to 12, 24, or 36 times the Single Life benefit amount.

General Information about the Pension Plan (Continued)

PEERS is a defined benefit plan providing retirement, disability, and death benefits to its members. Members are vested for service retirement benefits after accruing five years of service. Individuals who (a) are at least age 60 and have a minimum of five years of service, (b) have 30 years of service, or (c) qualify for benefits under the "Rule of 80" (service and age total at least 80) are entitled to a monthly benefit for life, which is calculated using a 1.61% benefit factor. Members qualifying for "Rule of 80" or "30-and-out" are entitled to an additional temporary benefit until reaching minimum Social Security age (currently age 62), which is calculated using a 0.8% benefit factor. Actuarially age-reduced retirement benefits are available with five to 24.9 years of service at age 55. Members who are younger than age 55 and who do not qualify under the "Rule of 80" but have between 25 and 29.9 years of service may retire with a lesser benefit factor. Members that are three years beyond normal retirement can elect to have their lifetime monthly benefits actuarially reduced in exchange for the right to also receive a one-time partial lump sum (PLSO) payment at retirement equal to 12, 24, or 36 times the Single Life benefit amount.

Summary Plan Descriptions detailing the provisions of the plans can be found on the Systems' website at www.psrs-peers.org.

Cost-of-Living Adjustments (COLA). The board of trustees has established a policy of providing COLAs to both PSRS and PEERS members as follows:

- If the June to June change in the Consumer Price Index for All Urban Consumers (CPI-U) is less than 2% for consecutive one-year periods, a cost-of-living increase of 2% will be granted when the cumulative increase is equal to or greater than 2%, at which point the cumulative increase in the CPI-U will be reset to zero. For the following year, the starting CPI-U will be based on the June value immediately preceding the January 1 at which the 2% cost-of-living increase is granted.
- If the June to June change in the CPI-U is greater than or equal to 2%, but less than 5%, a cost-of-living increase of 2% will be granted.
- If the June to June change in the CPI-U is greater than or equal to 5%, a cost-of-living increase of 5% will be granted.
- If the CPI decreases, no COLA is provided.

For any PSRS member retiring on or after July 1, 2001, such adjustments commence on the second January after commencement of benefits and occur annually thereafter. For PEERS members, such adjustments commence on the fourth January after commencement of benefits and occur annually thereafter. The total of such increases may not exceed 80% of the original benefit for any member.

General Information about the Pension Plan (Continued)

Contributions. PSRS members were required to contribute 14.5% of their annual covered salary during fiscal years 2023, 2024, and 2025. Employers were required to match the contributions made by employees. The contribution rate is set each year by the PSRS Board of Trustees upon the recommendation of the independent actuary within the contribution restrictions set in Section 169.030 RSMo. The annual statutory increase in the total contribution rate may not exceed 1% of pay.

PEERS members were required to contribute 6.86% of their annual covered salary during fiscal years 2023, 2024, and 2025. Employers were required to match the contributions made by employees. The contribution rate is set each year by the PSRS Board of Trustees upon the recommendation of the independent actuary within the contribution restrictions set in Section 169.030 RSMo. The annual statutory increase in the total contribution rate may not exceed 0.5% of pay.

The College's contributions to PSRS and PEERS were \$1,705,022 and \$356,096 respectively, for the year ended June 30, 2025. The College's contributions to PSRS and PEERS were \$1,659,870 and \$336,170, respectively, for the year ended June 30, 2024.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources, and Deferred Inflows of Resources Related to Pensions

At June 30, 2025, the College recorded a liability of \$14,033,178 for its proportionate share of the PSRS net pension liability and \$1,797,355 for its proportionate share of the PEERS net pension liability. In total the College recorded net pension liabilities of \$15,830,533. The net pension liability for the plans in total was measured as of June 30, 2024, and determined by an actuarial valuation as of that date. The College's proportionate share of the total net pension liability was based on the ratio of its actual contributions paid to PSRS and PEERS of \$1,659,870 and \$336,170, respectively, for the year ended June 30, 2024, relative to the total contributions of \$818,841,136 for PSRS and \$161,238,002 for PEERS from all participating employers. At June 30, 2024, the College's proportionate share was 0.2027% for PSRS and 0.2085% for PEERS, an decrease of 0.0002% and 0.0032% from the prior year, respectively.

For the year ended June 30, 2025, the College recognized pension expense (income) of \$1,540,753 for PSRS and \$373,613 for PEERS, its proportionate share of the total pension expense (income). Pension expense is the change in the net pension liability from the previous reporting period to the current reporting period, less adjustments. This may be a negative expense (pension income).

At June 30, 2024, the College recorded a liability of \$16,963,501 for its proportionate share of the PSRS net pension liability and \$2,114,680 for its proportionate share of the PEERS net pension liability. In total the College recorded net pension liabilities of \$19,078,181. The net pension liability for the plans in total was measured as of June 30, 2023, and determined by an actuarial valuation as of that date. The College's proportionate share of the total net pension liability was based on the ratio of its actual contributions paid to PSRS and PEERS of \$1,602,792 and \$309,257, respectively, for the year ended June 30, 2023, relative to the total contributions of \$790,025,521 for PSRS and \$146,077,918 for PEERS from all participating employers. At June 30, 2023, the College's proportionate share was 0.2029% for PSRS and 0.2117% for PEERS, an increase of 0.0087% and 0.0013% from the prior year, respectively.

For the year ended June 30, 2024, the College recognized pension expense of \$1,863,406 for PSRS and \$432,279 for PEERS, its proportionate share of the total pension expense.

Actuarial Assumptions

Actuarial valuations of the Systems involve assumptions about the probability of occurrence of events far into the future in order to estimate the reported amounts. Examples include assumptions about future employment, salary increases, and mortality. Amounts determined regarding the net pension liability are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The Board of Trustees adopts actuarial assumptions, each of which individually represents a reasonable long-term estimate of anticipated experience for the Systems, derived from experience studies conducted every fifth year and from Board policies concerning investments and COLAs. The most recent comprehensive experience studies were completed in May 2021. All economic and demographic assumptions were reviewed and certain assumptions were updated, where appropriate, based on the results of the studies and effective with the June 30, 2021 valuations. For PSRS, the retirement rates assumption was updated for the June 30, 2023 valuation due to the passage of Senate Bill 75 (HCS/SS/SB 75), which added the 2.55% formula factor for members that retired with 32 or more years of service. Significant actuarial assumption and methods are detailed below. For additional information please refer to the Systems' Annual Comprehensive Financial Report (ACFR). The next experience studies are scheduled for 2026.

Cost-of-Living Increases - PSRS
and PEERS

Given that the actual increase in the CPI-U index from June 2023 to June 2024 was 2.97%, the Board approved an actual cost-of-living adjustment (COLA) as of January 1, 2025 of 2.00%, in accordance with the Board's funding policy and Missouri statutes, compared to an assumed COLA of 2.00%. Future COLAs assumed in the valuation are 1.35% each January. This COLA assumption is based on the 20-year stochastic analysis of inflation performed in the 2021 experience study, the application of the Board's COLA policy, and the short-term expectations of COLA due to recent CPI activity. It is also based on the current policy of the Board to grant a COLA on each January 1 as follows:

- If the June to June change in the CPI-U is less than 2% for one or more consecutive one year periods, a cost-of-living increase of 2% will be granted when the cumulative increase is equal to or greater than 2%, at which point the cumulative increase in the CPI-U will be reset to zero. For the following year, the starting CPI-U will be based on the June value immediately preceding the January 1 at which the 2% cost-of-living increase is granted.
- If the June to June change in the CPI-U is greater than or equal to 2%, but less than 5%, a cost-of-living increase of 2% will be granted.
- If the June to June change in the CPI-U is greater than or equal to 5%, a cost-of-living increase of 5% will be granted.
- If the CPI decreases, no COLA is provided.

The COLA applies to service retirements and beneficiary annuities. The COLA does not apply to the benefits for in-service death payable to spouses (where the spouse is over age 60) and does not apply to the spouse with children pre-retirement death benefit, the dependent children pre-retirement death benefit, or the dependent parent death benefit. The total lifetime COLA cannot exceed 80% of the original benefit. PSRS members receive a COLA on the second January after retirement, while PEERS members receive a COLA on the fourth January after retirement.

PSRS and PEERS

There have been no other changes to the actuarial assumptions and methods for PSRS or PEERS since the June 30, 2021 valuations, which included various assumption updates pursuant to the 2021 experience study. The next experience studies are scheduled for 2026.

Fiduciary Net Position

The Systems issue a publicly available financial report (ACFR) that can be obtained at www.psrs-peers.org.

Expected Rate of Return

The long-term expected rate of return on investments was determined in accordance with Actuarial Standard of Practice (ASOP) No. 27, *Selection of Economic Assumptions for Measuring Pension Obligations*. ASOP No. 27 provides guidance on the selection of an appropriate assumed rate of return. The long-term expected rate of return on the Systems' investments was determined using a building-block method in which best-estimate ranges of expected future real rates of returns (expected returns, net of investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the Systems' target allocation as of June 30, 2024 are summarized below along with the long-term geometric return.

Discount Rate

The long-term expected rate of return used to measure the total pension liability was 7.3% as of June 30, 2024, and is consistent with the long-term expected geometric return on plan investments. The Board of Trustees adopted a new actuarial assumed rate of return of 7.3% effective with the June 30, 2022 valuations based on the actuarial experience studies conducted during the prior fiscal year. The projection of cash flows used to determine the discount rate assumed that employer contributions would be made at the actuarially calculated rate computed in accordance with assumptions and methods stated in the funding policy adopted by the Board of Trustees, which requires payment of the normal cost and amortization of the unfunded actuarially accrued liability in level percent of employee payroll installments over 30 years utilizing a closed period, layered approach. Based on this assumption, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members.

NOTE 9 POSTRETIREMENT BENEFITS OTHER THAN PENSIONS

Effective July 1, 2017, Moberly Area Community College adopted Governmental Accounting Standards Board Statement No. 75 (GASB 75), *Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pension (OPEB)*. This statement requires the accounting for annual cost of other postemployment benefits and the related outstanding liability using an actuarial approach similar to pensions.

Plan Description

The College provides healthcare benefits to retirees and their dependents, including medical, life, dental and vision coverage and receives premium payments from the retirees for that coverage. The rates paid by retirees for benefits were lower than the costs of providing coverage. The difference between these amounts is the implicit rate subsidy, which is considered OPEB under GASB Statement No. 75.

NOTE 11 PROPERTY TAXES

Property taxes are billed in the fall of the year and are due and payable by December 31 of the same year. Property taxes are collected by the Randolph County collector who remits them to the College.

The total assessed valuation of the tangible taxable property located in the junior college district as of January 1, 2024 and 2023, upon which 2024 and 2023 tax rates of \$.3540 and \$.3755, respectively, per \$100 of the assessed valuation was levied for purposes of local taxation, was \$237,441,795 and \$211,195,221, respectively.

The receipt of current and delinquent property taxes during the fiscal year ended June 30, 2025 and 2024, aggregated approximately 96.8% and 108.0%, respectively, of the current assessment computed on the basis of the levy as shown above.

NOTE 12 NET POSITION

Net position is presented in three categories, net investment in capital assets, restricted and unrestricted. The restricted category of the fund balance is created to either (a) satisfy legal covenants which require a portion of the fund balance to be segregated or (b) identify the portion of the fund balance that is not available for future appropriation. Specific classifications of net position are summarized below:

- Net Investment in Capital Assets - This classification accounts for the value of the College's capital assets net of accumulated depreciation and net of the related debt.
- Restricted for Nonexpendable Endowment - This classification accounts for funds received by the College with restricted purposes, with the principal amounts to be held in perpetuity.
- Restricted for Expendable Endowment - This classification accounts for funds received by the College but expendable for restricted purposes.
- Unrestricted - This classification accounts for the unreserved category after the designated accounts have been taken into consideration.

NOTE 13 LEASE AND SUBSCRIPTION OBLIGATIONS

The College leases building and office facilities for various terms under long-term, noncancelable lease agreements. The leases expire at various dates through 2036 and provide for renewal options ranging from one to five years, and interest rates ranging from 0.45% and 4.82%.

**INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER
FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS
BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN
ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS***

Board of Trustees
Moberly Area Community College
Moberly, Missouri

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the business-type activities and the discretely presented component unit of Moberly Area Community College, as of and for the year ended June 30, 2025, and the related notes to the financial statements, which collectively comprise the Moberly Area Community College's basic financial statements, and have issued our report thereon dated December 18, 2025.

Report on Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Moberly Area Community College's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Moberly Area Community College's internal control. Accordingly, we do not express an opinion on the effectiveness of Moberly Area Community College's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether Moberly Area Community College's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of This Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

MOBERLY AREA COMMUNITY COLLEGE
MOBERLY, MISSOURI
NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS
YEAR ENDED JUNE 30, 2025

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accompanying schedule of expenditures of federal awards (the Schedule) of the Moberly Area Community College (the College) has been prepared in the format as set forth in Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of, the basic financial statements. The purpose of the Schedule is to present a consolidated summary of those expenditures of the College for the year ended June 30, 2025, which has been financed by the U.S. government (federal awards). For purposes of the Schedule, federal awards include all federal assistance and procurement relationships entered into directly and indirectly between the College and the federal government and sub-awards from nonfederal organizations made under federally sponsored agreements.

The accounting principles followed by the College and used in preparing the Schedule are as follows:

Expenses for direct costs are recognized as incurred using the accrual basis of accounting and the cost accounting principles contained in Uniform Guidance. Under those cost principles, certain types of expenses are not allowable or are limited as to reimbursement. Moreover, expenditures include a portion of costs associated with general College activities (facilities and administrative costs) which are allocated to awards under negotiated formulas commonly referred to as indirect cost rates. The College has elected to use the 10-percent de minimis indirect cost rate allowed under the Uniform Guidance.

NOTE 2 SUBRECIPIENTS

The College provided no federal awards to subrecipients during the year ended June 30, 2025.

NOTE 3 STUDENT FINANCIAL AID INSTITUTIONAL AND PROGRAM ELIGIBILITY METRICS

The College is in compliance with the following institutional and program eligibility requirements under the Higher Education Act of 1965 and Federal regulations under 34 CFR 668.23:

- Correspondence courses the institution offers under 34 CFR 600.7(b) and (g)
- Regular students that enroll in correspondence courses under 34 CFR 600.7(b) and (g)
- Institution's regular students that are incarcerated under 34 CFR 600.7(c) and (g)
- Completion rates for confined or incarcerated individuals enrolled in non-degree programs at nonprofit institutions under 34 CFR 600.7(c)(3)(ii) and (g)
- Institution's regular students that lack a high school diploma or its equivalent under 34 CFR 600.7(d) and (g)
- Completion rates for short-term programs under 34 CFR 668.8(f) and (g)
- Placement rates for short-term programs under 34 CFR 668.8(e)(2)

**INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER
FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS
BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN
ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS**

Board of Trustees
Moberly Area Community College
Moberly, Missouri

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the business-type activities of Moberly Area Community College, as of and for the year ended June 30, 2025, and the related notes to the financial statements, which collectively comprise the Moberly Area Community College's basic financial statements, and have issued our report thereon dated December 18, 2025.

Report on Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Moberly Area Community College's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Moberly Area Community College's internal control. Accordingly, we do not express an opinion on the effectiveness of Moberly Area Community College's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether Moberly Area Community College's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of This Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**INDEPENDENT AUDITORS' REPORT ON COMPLIANCE FOR EACH MAJOR
FEDERAL PROGRAM, REPORT ON INTERNAL CONTROL OVER COMPLIANCE,
AND REPORT ON THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS
REQUIRED BY THE UNIFORM GUIDANCE**

Board of Trustees
Moberly Area Community College
Moberly, Missouri

Report on Compliance for Each Major Federal Program

Opinion on Each Major Federal Program

We have audited Moberly Area Community College's compliance with the types of compliance requirements identified as subject to audit in the OMB *Compliance Supplement* that could have a direct and material effect on each of Moberly Area Community College's major federal programs for the year ended June 30, 2025. Moberly Area Community College's major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

In our opinion, Moberly Area Community College complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2025.

Basis for Opinion on Each Major Federal Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America (GAAS); the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditors' Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of Moberly Area Community College and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of Moberly Area Community College's compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules and provisions of contracts or grant agreements applicable to Moberly Area Community College's federal programs.

Auditors' Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on Moberly Area Community College's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about Moberly Area Community College's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding Moberly Area Community College's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of Moberly Area Community College's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of Moberly Area Community College's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Other Matters

The results of our auditing procedures disclosed instance of noncompliance, which are required to be reported in accordance with the Uniform Guidance and which are described in the accompanying schedule of findings and questioned costs as item 2025-001. Our opinion on each major federal program is not modified with respect to these matters.

Government Auditing Standards requires the auditor to perform limited procedures on Moberly Area Community College's response to the noncompliance findings identified in our compliance audit described in the accompanying schedule of findings and questioned costs. Moberly Area Community College's response was not subjected to the other auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

Report on Internal Control Over Compliance

Our consideration of internal control over compliance was for the limited purpose described in the Auditors' Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance and therefore, material weaknesses or significant deficiencies may exist that were not identified. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, as discussed below, we did identify certain deficiency in internal control over compliance that we consider to be a significant deficiency.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance. We consider the deficiency in internal control over compliance described in the accompanying schedule of findings and questioned costs as item 2025-001 to be a significant deficiency.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

Government Auditing Standards requires the auditor to perform limited procedures on Moberly Area Community College's response to the internal control over compliance findings identified in our audit described in the accompanying schedule of findings and questioned costs. Moberly Area Community College's response was not subjected to the other auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Report on Schedule of Expenditures of Federal Awards Required by the Uniform Guidance

We have audited the financial statements of the business-type activities and discretely presented component units of Moberly Area Community College as of and for the year ended June 30, 2025, and the related notes to the financial statements, which collectively comprise Moberly Area Community College's basic financial statements. We have issued our report thereon, dated December 18, 2025, which contained unmodified opinions on those financial statements. Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the basic financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by the Uniform Guidance and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the

basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated in all material respects in relation to the basic financial statements as a whole.

Section III – Findings and Questioned Costs – Major Federal Programs

2025 – 001: Suspension & Debarment

Federal Agency: US Department of Treasury

Federal Program Title: Coronavirus State and Local Fiscal Recovery Funds

Assistance Listing Number: 21.027

Federal Award Identification Number and Year: Various

Award Period: July 1, 2024, to June 30, 2025

Type of Finding:

- Compliance, Other Matter
- Significant Deficiency in Internal Control Over Compliance

Criteria or specific requirement: Per 2 CFR 200.213, non-federal entities are prohibited from contracting with or making subawards to parties that are suspended, debarred, or otherwise excluded from participation in federal programs. Verification must be performed through SAM.gov, a written certification, or inclusion of the appropriate clause in the agreement.

Condition: During our review of grant disbursements, the College was unable to provide formal documentation to demonstrate that a suspension and debarment check was completed for all disbursements selected for testing.

Context: For all (two) of the transactions selected for testing, the College was unable to provide documentation to support the date suspension and debarment checks were verified.

Questioned costs: None

Cause: The absence of formal documentation suggests that either the check was not performed or was performed but not properly documented

Effect: Failure to document suspension and debarment checks could result in noncompliance with federal regulations and institutional policy, increasing the risk of disallowed costs and potential reputational or financial consequences.

Repeat finding: No

Recommendation: We recommend the College evaluate its procedures and policies around suspension and debarment to ensure that checks are both performed and formally documented prior to entering into the contract.

View of responsible official: There is no disagreement with the audit finding.
