

Associate Degree Nursing (ADN) – Fall Sequence

Name: _____ ID#: _____ Date: _____

The two-year Associate Degree in Nursing program, housed at the Main Campus in Moberly, provides a combination of subject matter and clinical experiences designed to prepare a person to provide high-quality, safe, effective, patient-centered care to individuals or groups of individuals with well-defined health problems.

Upon successful completion of the program, the student is eligible to apply to take the National Council of Licensing Examination for Registered Nurses. Missouri Nursing Practice Act, Section 335.006, provides additional criteria for eligibility to apply for licensure to practice nursing. Successful completion of the program does not guarantee eligibility to take the licensing exam. Satisfactory performance on the examination will qualify the student for licensure as a registered nurse.

The program is fully approved by the Missouri State Board of Nursing and is approved by the Coordinating Board for Higher Education and the Department of Elementary and Secondary Education, Division of Career Education.

Taken	Course	Semester	Hours
		First Semester (Fall)	
	BIO205**	Human Anatomy	4
	MTH140** <u>or</u> higher	^College Algebra <u>or</u> higher	3
	NUR100	Medication Administration (1 st 8-weeks)	1
	NUR102	Fundamentals of Nursing & Mental Health	8
	PSY101**	General Psychology	3
			19
		Second Semester (Spring)	
	BIO209**	^Physiology	4

	NUR220	Adult Health Nursing II	10
			13
		Minimum Required Hours for Degree	69

****The program requires MTH140 or higher. If the math requirement is not met prior to entry, you must have a placement score or assessment measure that places you directly into MTH140 or higher, passed MTH042 with a "C" or higher, or have completed MTH095 or equivalent.**

Students seeking admission into the ADN program may complete the required general education coursework with a "C" or above prior to the date of entry into the program. These courses are not pre-requisites; however, it is beneficial to complete as many of the courses as possible while waiting for admission into the program.

^Please refer to the course descriptions for pre/co-requisite and placement information. You can only register for these courses if you have met the prerequisite, placed into the course and/or enroll in the co-requisite course(s).

The nursing component of the degree is composed of nine nursing courses taken in four semesters. Each course must be taken in sequence and generally includes classroom and clinical experiences. Clinical experiences will be provided at hospitals, nursing homes, clinics and other selected facilities. The student should anticipate additional time for preparation in nursing courses as well as in the non-nursing courses.

Most Professional Nursing Courses (NUR) require additional course days to obtain clinical experience in addition to normal coursework.

A grade of "C" or better must be obtained in all required courses.

Prior to clinical experience, a physical examination, urine drug screen, documentation of immunizations and a cardiopulmonary resuscitation (CPR) course are required.

Students are expected to provide their own transportation to clinical sites. Clinical sites are located throughout Central and Northeast Missouri.

Additional Graduation Requirement

Missouri law, included in Senate Bill 807, requires every college student pursuing an associate's or bachelor's degree at a public institution to pass the Missouri Higher Education Civics Achievement Examination with at least a 70 percent to graduate. The rule will apply to the incoming class of first-time college students in the fall of 2019 and all students thereafter.

For additional admission information, please see the ADN Application located on the MACC website or call the Health Science Office at ext. 11250.

This academic map is not a contract, either expressed or implied, between MACC and the student, but represents a flexible program of the current curriculum which may be altered from time to time to meet the academic objectives of the college. MACC specifically reserves the right to modify, delete, or add to any academic map at any time within the student's period of study at the college.
