

Associate of Science – Engineering

(Recommended Map for Students Starting in MTH150 Precalculus)

Name: _____ ID#: _____ Date: _____

The Associate of Science in Engineering (AS Engineering) degree is intended for students planning to transfer to a four-year institution to pursue a Bachelor of Science degree in engineering. The AS Engineering degree differs from the Associate of Arts (AA) degree in the level of mathematics and science coursework that is required. It is crucial that students begin the math sequence in the first semester of study in order to complete the degree in two years. Students entering MACC ready to enroll in MTH 201 their first semester can expect to complete the AS degree in four semesters. Students not meeting the entrance requirements for MTH 201 are encouraged to enroll in MTH 150 in the first semester of study. MTH 150 is specifically designed to provide AS Engineering students with the preparation needed to successfully complete the Calculus series. Students requiring additional math preparation prior to Precalculus will require additional semesters to complete the degree.

A grade of “C” or better is required for MTH 201, MTH 202, and PHY 201 to graduate. A grade of “C” or better is recommended for all courses to ensure transfer of credit. All AS students are encouraged to work with an advisor from both MACC and the planned transfer institution to create an individualized plan of study tailored to meet individual needs.

Taken	Course	Semester	Hours
		First Semester	
	ECN101 <u>or</u> ECN102	Macroeconomics <u>or</u> Microeconomics	3
	EGN101	Introduction to Engineering	1
	HST105 <u>or</u> HST106 <u>or</u> PSC105	American History to 1865 <u>or</u> American History from 1865 <u>or</u> Introduction to American Government	3
	LAL101	^Composition I	3
	MTH150	^Precalculus	5
			15
		Second Semester	
		<u>General Education Elective</u>	3
	LAL102	^Composition II	3
	MTH201	^Analytic Geometry & Calculus I	5
	PHY121	^General Chemistry I	5
			16
		Third Semester	
		<u>Engineering Elective</u>	3
		<u>General Education Elective</u>	3
	MTH202	^Analytic Geometry & Calculus II	5
	PHY201	^Engineering Physics I	5
			16
		Fourth Semester	
		<u>Engineering Elective</u>	3
		<u>Free Elective (General Education or Engineering)</u>	3
		<u>Free Elective (General Education or Engineering)</u>	3
	MTH203	^Analytic Geometry & Calculus III	5
	PHY202	^Engineering Physics II	5
			19
		Minimum Required Hours for Degree	61

****Shaded courses must be completed in the sequence indicated. Failure to complete these courses in the appropriate sequence will result in extension of time to complete the AS degree.**

^Please refer to the college catalog and course descriptions for pre/co-requisite and placement information. You can only register for these courses if you have met the prerequisite, placed into the course and/or enroll in the co-requisite course(s).

Additional Graduation Requirement - Missouri law, included in Senate Bill 807, requires every college student pursuing an associate's or bachelor's degree at a public institution to pass the Missouri Higher Education Civics Achievement Examination with at least a 70 percent to graduate. The rule will apply to the incoming class of first-time college students in the fall of 2019 and all students thereafter.

Associate of Science Engineering Course Equivalency Guide

This guide shows how courses taken at MACC will transfer to the University of Missouri and Missouri S&T. All courses listed will transfer, but all courses do not count toward the degree requirements for all engineering programs. See transfer guide for details. ^Please refer to the college catalog and course descriptions for pre/co-requisite and placement information. You can only register for these courses if you have met the prerequisite, placed into the course and/or enroll in the co-requisite course(s).
