

Associate of Applied Science in Aviation Commercial Pilot

When students complete an Associate of Applied Science (AAS) in Aviation Commercial Pilot degree at MACC they will be able to:

1. Demonstrate proficiency in basic and advanced airmanship in accordance with FAA standards.
2. Demonstrate proficiency of Federal Aviation Regulations (FARs) and related guidelines during all phases of flight.
3. Apply Aeronautical Decision-Making (ADM) and Crew Resource Management (CRM) principles to recognize and mitigate risks.

This is our program promise.
